Balmy Weather Gives Taste of Coming Spring

Temperature Rises 44 Degrees in Marion; Drop Seen on Tuesday

Early morning temperature readings today in the high 50s meant another day of unseasonably warm weather in Marion and area as well as in much of the Midwest.

Although it seems as if spring is just around the corner, there will surely be more cold weather in the next few weeks.

The current warm temperatures are expected to start falling a little tomorrow, with the forecast for Tuesday being mostly cloudy with scattered showers and turning colder.

Within a period of about 32 hours over the weekend, the mercury rose 44 degrees. The early morning reading Saturday was 17 degrees, and the high for yesterday, occurring about the middle of the afternoon, was 61. Last night, the thermometer dropped only 10 degrees to 51, recorded as the low for the night.

About 9:30 this morning, the temperature stood at 58 and it was expected to reach the mid 60's today. A year ago, the high was 40 and the low 28.

The Associated Press reported temperatures tood at 60 or higher in the southern and central Plains and southern Great Lakes region bounded on the north by a line running through central Nebraska to central Illinois, then southward to Florida.

To a lesser degree, it also was warm in the east. Temperatures ranged from 50 along the South Atlantic coast to the 30s in New York state and 14 at Caribou, Maine.

Treasury Says 4 on Security Lists Disloyal

WASHINGTON (AP)—The Treasury Department has informed Congress that out of 130 "security" dismissals or forced resignations in 1953, four were found to be "disloyal persons" under standards since scrapped.

The information was given to the House Appropriations Committee, which published it today, by Elbert P. Tuttle, acting security officer for the department, which has about 77,000 employes. The committee was considering the department's budget request.

A man doesn't have to be disloyal to be classed as a security risk, Tuttle said. He might be given a "dangerous" rating if he were "a rugged individual" with a mother behind the Iron Curtain, he added.

In a separate report on the customs service, whose 8,000 employes supervise imports into the United States, it was disclosed that six persons were dismissed last year as security risks. Customs Commissioner David B. Strubinger said all six appeared to have had "contact" with Communists.

Tuttle gave the information about the Treasury Department security dismissals under repeated demands from Rep. Gary (D-Va).

A number of Democrats in Congress have protested that Republicans have sought to give the impression that most of the 2,200 persons the administration says were dropped from the Federal payroll last year under its security program were subversives. Democrats claim a big majority of the 2,200 resigned or were fired for reasons other than loyalty and that many of them simply transferred to other government agencies.

Mansfield Gas Blast Sets Old YMCA on Fire

MANSFIELD, Ohio (AP)—A leading natural gas main exploded early today setting fire to the old YMCA building and rocking buildings in the Park avenue West area. No one was injured.

Firemen brought the blaze under control with fire damage only to the basement and first floor of the 50-year old YMCA. But the blast buckled floors and twisted partitions in the three-story brick building.

The YMCA was not a residence hall, but housed recreation and classroom facilities.

Crews from Ohio Fuel Gas Co. continued excavating today to find the leadking main. The explosion occurred about 1:20 a.m.

Damage was estimated unofficially at $80,000.

Ike Will Follow Up Bird Shooting With Palm Springs Visit

WASHINGTON (AP) — President Eisenhower, just back from a week end of quail hunting in Georgia, may travel to California this week for a brief vacation at Palm Springs.

The White House continued today to decline comment on reports about a Palm Spring visit, but a government official who asked not to be named said preliminary arrangements for such a trip by plane are just about completed.

The Los Angeles Examiner said it had learned Eisenhower will arrive at the California resort Friday. The Los Angeles Times also said the President planned a visit of a week or 10 days. Arrangements reportedly were made for him to stay at the Smoke Tree Ranch of Paul G. Hoffman, board chairman of the Studebaker.

Hoffman, former chief of the government's foreign aid program, was an adviser to Eisenhower during the presidential campaign.

Wave of Thefts Occurs in City Over Weekend

Vandalism Reported Also; Former Temple Of Israel Is Damaged

A rash of petty thievery, attempted break-ins, and vandalism in Marion over the weekend was reported today by city police.

A car owned by John McGowan of 248 N. State St. was damaged by vandals. He told police that sometime during the night four holes were shot in his car windows and left front door of his car was sprung out of shape in at attempt to pry it open. Total damage to his car was estimated at $100. It was parked in front of his residence.

Youths Frightened Off

Two youths were frightened off in an apparent attempt to steal a horn ring from a car at the Albert and Adams used car lot at 325 N. Main St. at 6:02 p.m. Sunday. A passerby called police and reported he saw the boys run away from a car on the lot as he approached.

At Key's used car lot a block away, at 436 N. Main St., four large hubcaps valued at $30 were stolen from one of the cars. The theft was reported to police at 9:40 a.m. this morning by Robert Shroats, an employe.

Hubcaps and fender skirts were stolen from a car parked in front of his residence and owned by Robert Anthony of 712 Fillmore St. He called police at 9:30 a.m. Sunday and said the theft occurred sometime during the night.

Gas Pump Door Broken

At attempt to open the door of a gasoline pump at the Borden Dairy Co. on Olney Ave. was reported to police at 9:50 a.m. Sunday by Joseph Malo, an employe. Glass in a door in the pump housing had been broken out and there were signs of an attempt to pry the door open.

Windows were broken out, electric light chandeliers were torn down, and the entire building ransacked at the former Jewish Temple on E. Center St. sometime over the weekend. Now owned by Albers Supermarkets of Cincinnati, the building has been vacant since last summer when the Congregation of Israel moved to its new home on Mt. Vernon Ave. There was no estimate of the damage inside the building.

Police Chief Tom Coon said all the cases seemed to be the work of juveniles and police are continuing their investigations.

Inside Mountain

Pentagon Offices To Go Underground if Attacked

By ELTON C. FAY

WASHINGTON (AP) — The high command's atom-age "underground Pentagon," built inside a mountain 65 miles from the national caital, is ready.

A Defense Department spokesman said today in reply to a reporter's question that the project, which started three years ago to provide an alternate command post and communications center if atomic attack should threaten or destroy the Pentagon, is "100 per cent completed."

The cost of blasting out the cavern under Rock Raven Mountain, in Frederick County, Md., building housing for personnel above ground and installing communications equipment presumably reached at least the original estimate of 35 million dollars.

Available information indicates a maintenance force of military personnel now is at what the Defense Department calls its "joint supplemental communications facility."

Jurisdiction of the facility, which includes the former National Guard training site of Ft. Ritchie as well as the man-made cavern five miles from the fort, is under the Defense Department. Its use in wartime would be by all three services—Army, Navy and Air Force—for central direction of defense and counterattack even though headquarters at Washington might be wiped out. The Pentagon itself is a peculiarly vulnerable target for air attack, easily identifiable from the air by radar because of its stone-steel construction and unique shape and its location near the Potomac River.

The underground Pentagon was financed through Army, Navy and Air Force funds, specifically approved after congressional committees had heard testimony in private session, the spokesman said.

Treaty Curbs Issue Revived By Senators

Substitute Proposal By Sen. George Gets Backing by Sparkman

By JACK BELL

WASHINGTON (AP)—Sen. Sparkman (D-Ala) came out today for a substitute offered by Sen. George (D-Ga) for a proposed constitutional amendment to limit treaty powers.

Sparkman said in an interview he believes George has "put into simple words" what Sen. Bricker (R-Ohio) sought to do in an amendment proposal which has been criticized vigorously by President Eisenhower.

Provides Assurance

"The George amendment will give assurance to those who actually fear that a treaty might infringe upon constitutional rights," Sparkman said.

George plans conferences today with Sen. Knowland of California, the Republican floor leader, and possibly with Bricker on proposed changes in his substitute. The Senate resumes discussion of the constitutional change today, with George predicting that a showdown vote may be reached by Thursday.

As it stands now, George's substitute would nullify treaties or international agreements which conflict with the Constitution. It also would provide that an international agreement, other than a treaty, should not become effective as internal law except by act of Congress. Such agreements are not now subject to Senate ratification, as are treaties.

Would Add Language

To his second provision George proposed adding language which would exempt the President's war and diplomatic recognition powers.

George studied over the weekend a memorandum from Atty. Gen. Brownell which apparently suggested alternative language to that offered by the Georgia senator.

George said that until he discusses this new counteroffer with Knowland and Bricker he won't be able to say whether it is acceptable to him.

Meanwhile, Brownell was silent on a weekend demand from Sen. Hennings (D-Mo) that the attorney general come out against any compromise on the treaty power issue.

"There can be no compromise on this issue without compromising the Constitution itself," Hennings declared.

The Bricker proposal, now regarded as having no chance of approval in its original form, has been before the Senate for three weeks, while leaders of both parties sought a compromise which would be acceptable to at least two thirds of the Senate — the number required for passage of a proposed amendment.

Four Injured In Collision of 3 Automobiles

Four persons were injured in one of the two Marion County accidents reported today by the Marion post of the state highway patrol. City police reported no accidents.

The injured were hurt in a three-car mishap at 1:10 a.m. Sunday on Route 4 south of Marion.

According to state patrolmen, a car driven by Daniel Walti, 18, of Westerville, had stalled on the highway. Several young men were attempting to push the car to get it started, when another northbound automobile driven by Walter N. Fisher, 43, of near Marion struck the rear end of the Walti car. The youths pushing the Walti car saw the second auto approaching and managed to get out of the way.

In the meantime, a third car, driven by Charles G. Murray, 38, of Richwood, headed south, was sideswiped by one of the first two vehicles. State police have not yet determined which one.

Taken to Marion City Hospital by the Boyd ambulance were Alyce Murray of Richwood, with bruised knees and left forearm; Gladys Marine, also of Richwood, with bruised knees, right ankle and head; Walter Fisher, lacerations of the left knee; and Mary J. Jordan, a passenger in the Fisher car, with lacerations of the face and left arm, as well as a sprained right arm. Hospital authorities reported all four were treated and released.

Patrolmen reported severe damage to the Walti and Fisher cars, while the Murray vehicle sustained only moderate damage.

Fisher was given a citation to appear in Municipal Court Friday

Big Four Gather in Secret Session for Discussion on Korean, Indochina Issues

CONFER ON A STATE TREATY FOR AUSTRIA. Foreign Minister of Austria Leopold Figl (second from right) confers with the Western Powers' Foreign Ministers in Berlin on a state treaty for his country. In the group (l. to r.) are: John Foster Dulles, United States; Anthony Eden, Great Britain; Figl; and Georges Bidault, France. Shortly after this meeting, Russia barred an early conclusion of an Austrian treaty by demanding continued military occupation of that country until a peace pact is signed with Germany. This is unacceptable to the West.

Berlin Talks Set To Close On Thursday

Neither East Nor West Optimistic on Chances Of War-Ending Move

BERLIN (AP)—The last thin hope of action by the Big Four foreign ministers on any important subject rested today in a secret session called to discuss how to end the wars in Korea and Indochina.

Neither side was optimistic that a decision would be taken at this conference on steps to liquidate the fighting in the Far East. But neither West nor East slammed the door on the remote chance of a meeting of minds on this subject.

To Quit Thursday

The conference did reach one agreement yesterday—to adjourn Thursday. U.S. Secretary of State Dulles demanded that Soviet Foreign Minister V. M. Molotov sign an Austrian treaty of independence by then or admit further talk was useless.

Molotov again insisted that any Austrian treaty permit Big Four occupation troops to remain in Austria until a German peace treaty is concluded—something obviously years away, and that Austria be banned forever from an alliance with the West.

The West again flatly refused these Soviet terms, and Molotov, as the day's chairman, announced the parley would end Thursday.

The ministers then will have met for 23 days during which solutions of the German and Austrian problems have been brought no nearer, the possibility has been raised of negotiations with Communist China toward peace in Korea and Indochina, and Dulles and Molotov have done some spadework toward negotiations on President Eisenhower's proposed atomic pool for peaceful purposes.

Ask April Meeting

The Western foreign ministers have asked Molotov to meet them again in Geneva April 15 to take up the Korean question. The Russian has been considering this, but still with one major objective in view:

Physician Says Woman Hit at Least 5 Times

Pathologist Testifies On Results of Autopsy At Sternbaum's Trial

MANSFIELD, Ohio (AP) — Mrs. Leah Sternbaum "died of fractures . . when her head was struck a minimum of five times by some implement," Pathologist Frank Cleveland of Cincinnati declared today.

Dr. Cleveland described the "instrument" as having "relatively small surface and sharp right angle edges."

He was the first witness today as the first-degree murder trial of E. Max Sternbaum, 35-year-old supermarket executive, entered its second week.

The state charges Sternbaum beat his wife to death with a wrench, then set fire to the Sternbaum Supermarket offices Dec. 4, 1952. Sternbaum's defense attorneys say the store executive and his wife were attacked by robbers.

Cleveland testified on details of the autopsy he performed Nov. 13, when Mrs. Sternbaum's body was taken from its grave. He said he found the body of a "well-nourished and well-developed female" with a series of burns on her face and the front of her body. He said soles of her feet were charred, indicating there was no covering on the feet to protect them from fire.

In his autopsy report issued Nov. 13, Dr. Cleveland had said Mrs. Sternbaum, in his opinion, "was alive at the onset of the fire."

Mrs. Sternbaum died, Cleveland said, of fractures of the skull and lacerations of the brain. He said he found clotted blood in the air passages which came from the skull fractures.

One trial juror was discharged today because he contracted mumps. He was replaced by the 13th juror, Mrs. Alice Geary, and Judge G. E. Kalbfleisch advised other jurors to take anti-mumps vaccine shots.

The defense today called back Identification Officer Paul Martin for a more thorough examination of his testimony on identification of Mrs. Sternbaum's body.

French Force Halts Attacking Vietminh

SAIGON, Indochina (AP) — The French high command announced today troops defending Luang Prabang have thrown back a Communist-led Vietminh attack made by advance rebel units who crossed the Mekong River about eight miles north of the Laotian royal capital.

The communique said the Vietminh forces, estimated at battalion strength, were repulsed after fierce fighting in which both sides suffered losses.

French defenders also tangled with rebel troops in the Suong River Valley, about eight miles northeast of Luang Prabang, putting them to flight.

A French spokesman said about 1,500 Vietminh guerilla troops around Luang Prabang's defense lines have been reinforced by an undetermined number of regular rebel units.

Chiang's Offer To Quit Refused By Kuomintang

TAIPEH, Formosa (AP) — The Central Committee of Nationalist China's Kuomintang (ruling party) today unanimously rejected Chiang Kai-shek's request to step down from the Nationalist presidency.

The 32-man committee nominated Chiang for a six-year term. He said he would announce his decision tomorrow.

As he had done six years ago Chiang told the party he felt the best interests of his nation would be served if he were not nominated.

He suggested Dr. Hu Shih, former ambassador to Washington, or Yu Yu-jen, head of the Executive Council, for the presidency, and offered, "if I am trusted," to serve either as head of the armed forces or as premier.

Dr. Hu, famed 63-year-old scholar-philosopher, was reported preparing to leave Washington for the National Assembly session which will elect the President March 20.

Yu, head of the nation's highest watchdog body, was generally considered too old—77—for president.

Chiang will choose his running mate. Approval will be only a formality.

In a 40-minute speech, Chiang recalled that in 1948 he asked to step down but the party didn't agree.

Support Price on Butter, Dairy Output To Be Cut

WASHINGTON (AP)— Secretary of Agriculture Benson announced today the government support price for butter, now about 66 cents a pound, will be reduced about eight cents effective April 1.

He said corresponding reductions will be made at the same time in skim milk.

At a news conference, Benson announced dairy price supports for the marketing year beginning April 1 will be set at 75 per cent of parity. This is the minimum level permitted by law. The present support rate is 90 per cent of parity.

Senator Lauds Benson's Action Ousting Gordon

Watkins Favors Moves To Strengthen GOP Control in Agriculture

WASHINGTON, (AP)—Sen. Watkins (R-Utah) said today that Secretary of Agriculture Benson has "given the Republican party a lift" by recent changes in top-level personnel of his department.

Watkins gave his opinion in an interview as both Republicans and Democrats caught their breath after a barrage of GOP Lincoln Day oratory and counterblasts. Some of the counterattacking Democrats renewed criticism of the administration flexible farm price support proposals.

Popular Despite Criticism

But Watkins, just back from a visit to his home state, said he found President Eisenhower just as popular as ever in the West despite this criticism.

"I don't think Republicans generally are quite as popular as they were in 1952, but maybe we don't have to be to retain control of Congress," he said.

Watkins, one of the original sponsors of Benson for his appointment to the Cabinet post, said he thinks GOP members generally will applaud Benson's replacement of Howard H. Gordon as administrator of the department's Commodity Stabilization Service, its big crop control and price support agency. Watkins said he thinks most Republicans will look on the shift as a "good start" toward firmer GOP control of the department.

Others Expected To Quit

Gordon was succeeded last week by James. A. McConnell, New York Republican farm leader, in a move expected to be followed by other resignations and by the replacement of Democrats with Republicans on state commodity stabilization committees—farmer groups

Saxbe Resists Move To Quit Senate Contest

COLUMBUS, Ohio (AP) — Ohio House Speaker William Saxbe today verified reports he had rebuffed attempts of Republican officials to have him pull out of the senatorial race.

Saxbe said the attempt was made by a few members of the State Republican Finance Committee at a meeting in Columbus last Monday.

"I am in the race to stay despite pressure," Saxbe said he told committee members.

He identified the members as R. L. Ireland and Arthur J. Gentholts, both of the M. A. Hanna Co., Cleveland, and E. D. Schorr of Columbus, a former state Republican chairman. Also urging Saxbe to step aside, he said, was Charles White, president of Republic Steel Corp., a member of the party's National Finance Committee. They reportedly are friendly to George M. Humphrey of Cleveland, secretary of the Treasury, who backed Bender.

Saxbe said he verified the reports because of information about the meeting "leaked" by Congressman George H. Bender of Cleveland. Bender is Saxbe's opponent for the Republican U. S. senatorial nomination in the May primary.

Saxbe said Bender let it out that the committee wanted Saxbe to stop criticizing what he termed Bender's "antics" at Republican conventions.

CONVICTIONS UPHELD

Two-Week Exploration Of Kentucky Cave Starts

CRYSTAL CAVE, Ky. (AP)—The woman, attired in Army khaki fatigue suit and a miner's helmet with carbide lamp, was descending into the cave for a week's sojourn.

A newsman inquired:

"Is there anything nicer you'd rather do?"

"Yes," replied Mrs. Ida V. Sawtelle, 47, of Brooklyn, N.Y. "I'd like to go down for two weeks."

Mrs. Sawtelle is typical of the 55 men and women engaged today in exploring Crystal Cave in the Mammoth Cave National Park area, 100 miles south of Louisville.

Bubbles With Excitement

She bubbled with excitement last night as she accompanied another woman and four men on the first stage of the exploration, requiring nine hours of crawling and hiking.

They carried 250 pounds of personal effects and equipment, which must be dragged over the rock and dirt.

Mrs. Sawtelle's bundles included the following items: a map, first aid kit, can of carbide, notebook and pencil, can opener, emergency rations, whistle, knife, kneepads, waterproof match container, 12 pounds of rope and other rock-climbing equipment, foot powder, cleaning tissues, comb, hand cream, face lotion and lipstick.

Trains Dogs

"You know there are rats in the cave?" someone asked.

Mrs. Sawtelle shrugged. "I've slept with rats running over my sleeping bag."

Mrs. Sawtelle, who earns her living training dogs, was accompanied by Marguerite Klein, 21, a schoolteacher from Chevy Chase, Md. Neither had spent more than a day in a cave.

Teamsters Hit Federal 'Hard Money' Policy

Secretary of Treasury Target at Executive Conference in Miami

MIAMI BEACH, Fla. (AP) — The AFL Teamsters Union opened a midwinter Executive Board meeting today with President Dave Beck sounding a "hard times" warning and questioning labor peace moves

Beck, chief of the 1,300,000-member Teamsters Union, hit at Secretary of the Treasury George M Humphrey s money policies and said they are responsible for the present unemployment situation.

Hits Hard Money Policy

"Our present economic situation can be traced right back to the 'hard money' policy launched by Humphrey nearly a year ago,' Beck said. "This search for hard money has brought on hard times"

The Teamsters Union's International Executive Board was expected either to reject outright or throw so many conditions into accepting a proposed AFL-CIO "no raiding' agreement as to place its effectiveness in jeopardy

AFL President George Meany, chief proponent of the AFL-CIO peace plan, left Miami Beach today ahead of the opening session of the teamsters board Meary has been trying to persuade labor unions to agree to peaceful settlement of their rivalries.

May Contest Legality

Beck, who has called a score of lawyers to the teamsters board meeting, was expected to contend that the "no raid" pact is illegal under the Taft Hartley Act The agreement is designed to bar a union from one federation against trying to capture members already organized by a union in the other federation. The peace agreement would apply, however, only to unions specifically signing it The teamsters, one of the largest unions in the country, could virtually torpedo the plan by a veto.

That Beck, who has considerable ambitions to swell teamsters membership, would refuse to go along with the plan was considered a foregone conclusion as the teamsters board meeting got under way Some teamsters lawyers were prepared to argue that the AFL-CIO plan, by designating the areas in which each union could organize members, would deny workers the right to choose between the unions, or overthrow one union in favor of another

Open To Debate

This argument was seriously challenged by other attorneys familiar with the T-H law. They pointed out that the law recognizes exclusive jurisdiction of union organizing by specifying how jurisdictional disputes between rival unions may be settled

Beck said the experiment launched by Treasury Secretary Humphrey shortly after President Eisenhower took office of issuing government bonds at higher interest rates had retarded credit, restricted business activity and spurred the present unemployment situation

He said the auto industry was the hardest hit, being in "the worst position in 30 years' He said used car values had declined to the point where thousands of car owners are turning their autos back to finance companies for the balance due because they can buy the same type car off used car lots for less money.

Battle of Words Continues

With control of the legislative branch at stake in next November s elections Republicans and Democrats fought a cross-country battle of words over the weekend on the issues of communism and recession

Some high-ranking Republicans like Sen Hickenlooper (R-Iowa) continued efforts to hang a Communist-coddling label on past Democratic administrations

Hickenlooper told a Lincoln Day audience in Louisville, Ky , that New Deal "surrenders to communism" caused most of the world's present troubles

He declared that some of those "who go around intoning dire threats of economic collapse and depression would trade the stability and strength of the United States in order to gain political position for themselves."

But in Urbana, Ill Saturday Sen Douglas (D-Ill) reiterated that there is danger of a depression He said the Democratic party will insist that steps be taken, if necessary, to reduce taxes on lower income groups

Douglas said Democrats "have every right to be indignant' at being called "traitors and near traitors,' when, he contended, the record shows "we broke the Berlin blockade, we saved Iran, we drove the Communists out of Greece, we built up Western Europe"

Rayburn Predicts Battle

The House Democratic leader, Rep Rayburn of Texas, took a similar line in a weekend speech in Washington He predicted "a nice hassle' when the administration tax revision program comes before the House, saying, 'About the only people who get relief are the ones who need it least'

Rayburn also declared House Democrats 'will be there when Benson tries to put over his sliding scale for farm price supports" When a maximum and minimum are fixed in such supports, the Texas contended, the minimum tends to become a maximum

Vice President Nixon, however, expressed confidence Democrats in Congress will support most of the President s program "because of Mr. Eisenhower's tremendous personal popularity"

He said in an interview in Portland Ore , 'They will be voting to help themselves, not the Republicans In an election year, congressmen are very practical about their voting

In New ork, Sen Lehman (D-Lib-NY) told a Democratic rally that if the present economy is in what he said GOP leaders call 'a rolling adjustment' then 'I trust and pray that it will stop rolling downward soon and start rolling upward again'

In St Louis, Sen Knowland of California, the GOP floor leader tried to soothe some Democratic feeling with a tribute to the 'moderates" of the opposition party, who he said, joined in supporting legislation for the best interests of the country

Anti-Aircraft Guns Aboard Big British Carrier Sabotaged

LONDON (AP)—The admiralty today confirmed anti aircraft guns on Britain s 36 800 ton aircraft carrier Eagle have been sabotaged

A spokesman said it looked like more of the 'hooliganism' blamed for more than 14 cases of malicious damage aboard British warships in the past year

He said some crew members may have become fed up by the crowding of modern ships with electronic and other push - button equipment and the subsequent reduction in living quarters

"Lack of privacy may be another cause of discontent' he said "There is no suggestion of organized sabotage by Communists or others"

Press reports from Gibraltar, where the Eagle arrived yesterday on maneuvers, said electronic gear controlling AA guns had been thrown overboard and that telephones in the bulkheads had been damaged

The Western trio want the Big Four at Geneva to organize a Korean peace conference If that parley succeeded, it could take up Indochina

West's Demands

At such a parley the West wants the Chinese Reds, North and South Korea, Russia, the Western Big Three and other interested parties, particularly the other 13 United Nations members whose troops had a share in the fighting

That point was due for discussion today Molotov and the Western ministers were far from agreement, but in their talks so far on the Far East there had been no blunt, decisive vetoes from either side

There was one strange development in the discussions yesterday Since the conference began the Western delegations have claimed that Molotov's proposals, particularly his plan for an all-European security pact, clearly are aimed at destroying the yet unborn European army as well as the steadily growing North Atlantic Treaty Organization

Molotov Blasts Eden

Molotov singled out Eden in the closing moments last night saying the Briton leads too many English newspapers which are of the opinion that the Soviet Union insists on the dissolution of the North Atlantic Treaty

"We ask you not to believe this' Molotov declared Later a Soviet press spokesman added The Soviet delegation has not proposed this"

In the West, nobody knew what either Russian meant

On the atomic front an American informant reported last night that Molotov at his last private talk with Dulles several days ago proposed Communist China be brought into any international parley on the Eisenhower pool proposal The American response was described as negative

Observers here presume the Soviet-American discussions will continue in Washington Molotov and Dulles reportedly reached no firm agreement on procedural arrangements for an atomic conference but Dulles was believed optimistic that serious negotiations yet may be started on the plan

Chinese Student Shocked With Red Schooling

HONGKONG (UP) — A 23 year-old Chinese student has fulfilled a promise to the Communists, but they will not be pleased

Chang Wohtai a university student who went from Indonesia to study in Red China told how he was impressed into the army as a "temporary volunteer' instead of being admitted into a university

Recently he requested permission to visit his family which now lives at Macao

'I had been a good 'volunteer' so they thought there was nothing wrong with letting me have a few weeks to see my family' Chang said 'Besides they asked me to tell the people of the outside world how the students were living on the mainland

'I am doing what I promised The student in the mainland is living an animal's life"

Chang, who wants to return to Indonesia to resume his studies said he fell prey to Communist lures in Indonesia where his teachers suggested he and other students go to China to complete their education

"When I arrived in Canton via Hongkong I learned the universities were insufficient to handle the students' he said 'The Communist authorities told us that it was better for us to join the army while waiting for the day when we could continue our studies

'We formed a militia group and received daily training in modern weapons, most of them Russian-made

'Apart from the active training we also had two to three hours of propaganda lectures in which they said that the American imperialists someday will attack the mainland as they did in Korea so everyone must be prepared They said the Chinese army is very strong and Mao (Mao Tse-tung, head of the Peiping government) will fight the imperialists as he fought them in Korea'

Then the realization of the sort of life he was living penetrated Chang s mind

It was after three months in Canton that I realized I was no more a free man, and I had to live as they liked' he said

'After six months as a volunteer' I asked permission to visit Macao to see my parents'

Students on the mainland, he said 'live in military barracks and study the operation of modern firearms

'We made a bad mistake returning, but I really hope those still living outside China realize that once over the China boundary they can start considering themselves as slaves and not as free people," Chang concluded.

Compound To Help Save Broken Teeth

BUFFALO N Y (UP) — One of dentistry s most difficult problems that of saving teeth that have been injured or broken, has been solved by a new chemical compound according to Dr Harold Berk of Boston

Berk the compound's developer, told the 86th annual meeting of the Eighth District Dental Society, that the compound developed in 1950, is now coming into general use.

A broken tooth often leaves a nerve exposed The new compound is applied to the exposed nerve in paste form hardens and forms a protective coating

New Methods Of Collecting Taxes Studied

Revised System Would Save About 35 Million From Filing Returns

WASHINGTON (AP) — Revenue Commission T. Coleman Andrews thinks the government can relieve about 35 million taxpayers from filing any individual income tax return at all next year—though they would still pay the tax

Would Double Agents

And he plans to double the number of revenue agents, now about 8 000, by adding 1 000 new agents a year to pick up 1½ to 2 billion dollars in taxes he says the government is now missing and check what he called a growing tide of evasion

Andrews outlined these and other far-reaching plans during closed hearings two weeks ago before a House Appropriations subcommittee on his agency's budget A transcript of his testimony was released today

The commissioner said "considerable progress" has been made on a long-talked plan under which no tax return would be required from persons whose entire income is subject to payroll withholding taxes

Would File Single Report

Employers would file a single report covering both income taxes and social security payments The government would compute the tax and send the taxpayer a bill or a refund

That would leave only about 20 million of the nation s 55 million income taxpayers still filing annual returns

Andrews said the plan would save 35 million dollars a year through reduced paper work for the tax service, but add 10 million in costs to the social security administration

He told the committee that 1955 is the target date for putting the plan into effect and 'I think we can do it

He said 1 500 new revenue agents can be added between now and June 30 1955, without increasing appropriations by using savings made in other fields

Claims Illegal Dependent

Andrews said the tax service also has smacked up against an apparent increase in efforts to claim illegal dependents and deductions and get bigger tax refunds than justified He noted that refunds have increased from 1½ billion dollars in 1950 to more than 2½ billion for 1953

The commissioner estimated there are errors in 77 per cent of individual returns for business income of between $10 000 and $30 000, errors in 60 per cent of the returns on nonbusiness, individual income between $10,000 and $30 000

For income below $10 000 he said a recent check covering only suspicious returns showed errors in 59 out of 100

For corporation and top-level returns he said the average revenue agent completed 124 examinations during 1953 and found over $260 000 in unreported taxes—a total for the whole service of over one billion dollars

Teamsters Hit Federal 'Hard Money' Policy

Secretary of Treasury Target at Executive Conference in Miami

MIAMI BEACH, Fla. (AP) — The AFL Teamsters Union opened a midwinter Executive Board meeting today with President Dave Beck sounding a "hard times" warning and questioning labor peace moves.

Beck, chief of the 1,300,000-member Teamsters Union, hit at Secretary of the Treasury George M. Humphrey's money policies and said they are responsible for the present unemployment situation.

Hits Hard Money Policy

"Our present economic situation can be traced right back to the 'hard money' policy launched by Humphrey nearly a year ago," Beck said. "This search for hard money has brought on hard times."

The Teamsters Union's International Executive Board was expected either to reject outright or throw so many conditions into accepting a proposed AFL-CIO "no raiding" agreement as to place its effectiveness in jeopardy.

AFL President George Meany, chief proponent of the AFL-CIO peace plan, left Miami Beach today ahead of the opening session of the teamsters board. Meany has been trying to persuade labor unions to agree to peaceful settlement of their rivalries.

May Contest Legality

Beck, who has called a score of lawyers to the teamsters board meeting, was expected to contend that the "no raid" pact is illegal under the Taft-Hartley Act. The agreement is designed to bar a union from one federation against trying to capture members already organized by a union in the other federation. The peace agreement would apply, however, only to unions specifically signing it. The teamsters, one of the largest unions in the country, could virtually torpedo the plan by a veto.

That Beck, who has considerable ambitions to swell teamsters membership, would refuse to go along with the plan was considered a foregone conclusion as the teamsters board meeting got under way. Some teamsters lawyers were prepared to argue that the AFL-CIO plan, by designating the areas in which each union could organize members, would deny workers the right to choose between the unions, or overthrow one union in favor of another.

Open To Debate

This argument was seriously challenged by other attorneys familiar with the T-H law. They pointed out that the law recognizes exclusive jurisdiction of union organizing by specifying how jurisdictional disputes between rival unions may be settled.

Beck said the experiment launched by Treasury Secretary Humphrey shortly after President Eisenhower took office of issuing government bonds at higher interest rates had retarded credit, restricted business activity and spurred the present unemployment situation.

He said the auto industry was the hardest hit, being in "the worst position in 30 years." He said used car values had declined to the point where thousands of car owners are turning their autos back to finance companies for the balance due because they can buy the same type car off used car lots for less money.

which help administer federal programs.

Politicians were pointing to the department's action in dropping W. O. Culbertson from its emergency drought committee in New Mexico as an example of what could be expected.

Robert L. Farrington, chairman of the department's drought committee, said Culbertson, a candidate for the Democratic nomination for governor in New Mexico, was dropped from the rolls "because we had information he was not in sympathy with the drought program."

Battle of Words Continues

With control of the legislative branch at stake in next November's elections, Republicans and Democrats fought a cross-country battle of words over the weekend on the issues of communism and recession.

Some high-ranking Republicans like Sen. Hickenlooper (R-Iowa) continued efforts to hang a Communist-coddling label on past Democratic administrations.

Hickenlooper told a Lincoln Day audience in Louisville, Ky., that New Deal "surrenders to communism" caused most of the world's present troubles.

He declared that some of those "who go around intoning dire threats of economic collapse and depression . . . would trade the stability and strength of the United States in order to gain political position for themselves."

But in Urbana, Ill., Saturday Sen. Douglas (D-Ill) reiterated that there is danger of a depression. He said the Democratic party will insist that steps be taken, if necessary, to reduce taxes on lower income groups.

Douglas said Democrats "have every right to be indignant" at being called "traitors and near traitors," when, he contended, the record shows "we broke the Berlin blockade, we saved Iran, we drove the Communists out of Greece, we built up Western Europe."

Rayburn Predicts Battle

The House Democratic leader, Rep. Rayburn of Texas, took a similar line in a weekend speech in Washington. He predicted "a nice hassle" when the administration tax revision program comes before the House, saying, "About the only people who get relief are the ones who need it least."

Rayburn also declared House Democrats "will be there when Benson tries to put over his sliding scale for farm price supports." When a maximum and minimum are fixed in such supports, the Texas contended, the minimum tends to become a maximum.

Vice President Nixon, however, expressed confidence Democrats in Congress will support most of the President's program "because of Mr. Eisenhower's tremendous personal popularity."

He said in an interview in Portland, Ore., "They will be voting to help themselves, not the Republicans. In an election year, congressmen are very practical about their voting."

In New ork, Sen. Lehman (D-Lib-NY) told a Democratic rally that if the present economy is in what he said GOP leaders call "a rolling adjustment," then "I trust and pray that it will stop rolling downward soon and start rolling upward again."

In St. Louis, Sen. Knowland of California, the GOP floor leader, tried to soothe some Democratic feeling with a tribute to the "moderates" of the opposition party, who, he said, joined in supporting legislation for the best interests of the country.

2 French Divers Drop 13,288 Feet Under Sea

PARIS (AP) — Two French naval officers rode a diving bell 13,288 feet below the surface of the Atlantic Ocean off Dakar on the west coast of Africa today, deeper than man has ever gone before.

The plunge, 2½ miles into the ocean's blackness, passed the depth record set Sept. 30 by Prof. Auguste Piccard and his son, Jacques, who dived in a bathyscafe to 10,339 feet in the Tyrrenhian Sea off the island of Ponza, Italy.

Anti-Aircraft Guns Aboard Big British Carrier Sabotaged

LONDON (AP)—The admiralty today confirmed anti-aircraft guns on Britain's 36,800-ton aircraft carrier Eagle have been sabotaged.

A spokesman said it looked like more of the "hooliganism" blamed for more than 14 cases of malicious damage aboard British warships in the past year.

He said some crew members may have become "fed up" by the crowding of modern ships with electronic and other push - button equipment and the subsequent reduction in living quarters.

"Lack of privacy may be another cause of discontent," he said. "There is no suggestion of organized sabotage by Communists or others."

Press reports from Gibraltar, where the Eagle arrived yesterday on maneuvers, said electronic gear controlling AA guns had been thrown overboard and that telephones in the bulkheads had been damaged.

Big 4

(Continued From Page 1)

If Russia goes to such a conference, it was indicated, Red China first must be called to a seat among the mighty.

The United States, with somewhat reluctant support from France and Britain, refuses to give Red China big-time status. Hope of agreement appeared to lie in finding some middle way by which the Big Four could talk about Korea and Indochina with Peiping's Chou En-lai but without admitting him to a discussion of general world tensions.

France's Georges Bidault, pressed at home for some early settlement of the wasting Indochinese war, would very much like to see an opening develop here.

The Western trio want the Big Four at Geneva to organize a Korean peace conference; if that parley succeeded, it could take up Indochina.

YMCA's Third Annual Candy Sale To Be Opened Wednesday

"Taffy Means Transportation" is the slogan of the third annual YMCA salt water taffy sale.

Kickoff meeting for the charity sale will be Wednesday, Feb. 17, at 4 p.m. Upwards of 1,000 boys and girls are expected to sell 10,000 one-pound boxes of candy in the three-day sale. Proceeds will go for badly needed repairs on the YMCA bus.

In a letter to parents, Marvin J. Ludwig, youth secretary, explained that Community Chest funds do not provide for the bus and that it is necessary to continue the children's week-end trips and summer trips. He asked the parents to sign a card giving their permission for their child to take part in the taffy sale. Ludwig added, "The success of this project depends upon the number of boys and girls involved."

The sale will end Saturday, Feb. 20 at 4 p.m. Prizes will be awarded at that time.

Last year's sale of 8,000 boxes by 375 youngsters netted over $1,600 for the building fund. YMCA officials have hopes for an even bigger sale this year. They point to the fact that YMCA youth membership is double what is was last year.

Compound To Help Save Broken Teeth

BUFFALO, N.Y. (UP) — One of dentistry's most difficult problems, that of saving teeth that have been injured or broken, has been solved by a new chemical compound, according to Dr. Harold Berk of Boston.

Berk, the compound's developer, told the 86th annual meeting of the Eigth District Dental Society, that the compound, developed in 1950, is now coming into general use.

A broken tooth often leaves a nerve exposed. The new compound is applied to the exposed nerve in paste form, hardens and forms a protective coating.

Chlopicrin, a standard Army Chemical Corps war gas, is an effective spray against insects commonly infecting sugar cane and pineapple crops.

New Methods Of Collecting Taxes Studied

Revised System Would Save About 35 Million From Filing Returns

WASHINGTON (AP) — Revenue Commission T. Coleman Andrews thinks the government can relieve about 35 million taxpayers from filing any individual income tax return at all next year—though they would still pay the tax.

Would Double Agents

And he plans to double the number of revenue agents, now about 8,000, by adding 1,000 new agents a year to pick up 1½ to 2 billion dollars in taxes he says the government is now missing, and check what he called a growing tide of evasion.

Andrews outlined these and other far-reaching plans during closed hearings two weeks ago before a House Appropriations subcommittee on his agency's budget. A transcript of his testimony was released today.

The commissioner said "considerable progress" has been made on a long-talked plan under which no tax return would be required from persons whose entire income is subject to payroll withholding taxes.

Would File Single Report

Employers would file a single report, covering both income taxes and social security payments. The government would compute the tax and send the taxpayer a bill or a refund.

That would leave only about 20 million of the nation's 55 million income taxpayers still filing annual returns.

Andrews said the plan would save 35 million dollars a year through reduced paper work for the tax service, but add 10 million in costs to the social security administration.

He told the committee that 1955 is the target date for putting the plan into effect and "I think we can do it."

He said 1,500 new revenue agents can be added between now and June 30, 1955, without increasing appropriations, by using savings made in other fields.

Claim Illegal Dependent

Andrews said the tax service also has smacked up against an apparent increase in efforts to claim illegal dependents and deductions and get bigger tax refunds than justified. He noted that refunds have increased from 1½ billion dollars in 1950 to more than 2½ billion for 1953.

The commissioner estimated there are errors in 77 per cent of individual returns for business income of between $10,000 and $30,000; errors in 60 per cent of the returns on nonbusiness individual income between $10,000 and $50,000.

For income below $10,000 he said, a recent check covering only suspicious returns showed errors in 59 out of 100.

For corporation and top-level returns, he said, the average revenue agent completed 124 examinations during 1953 and found over $260,000 in unreported taxes—a total for the whole service of over one billion dollars.

Intelligence

By George Sokolsky

None of us are required to know everything, but the chief of Army Intelligence (G-2) is presumed to have a working knowledge of the objective enemy of his country and his operations against the United States Recently the commander of G-2 of the United States Army was General Richard C Partridge, who has had a notable career in the military service of his country.

SOKOLSKY

He was called before the McCarthy committee and testified in the presence of the secretary of the Army, Robert T Stevens He was expected to be a friendly witness

The subject under discussion was a book prepared by the Army in 1951 to familiarize American intelligence officers with the people their ideas and ways in Siberia I have read this book and find that it often quotes Stalin's writings without quotation marks or any other evidence attributing the writing to Stalin.

— —

GEN. PARTRIDGE defended the book and got into a nassle with Sen McCarthy over its nature The book was written by Major Donald Emerson Allen and his bibliography shows that his references included Communists, pro-Communists and pro-Russians Gen Partridge did not originate the book

However, in the course of the interrogation, it appeared that Gen. Partridge did not possess elementary knowledge of the subject as the following colloquy shows

'Mr. Cohn As I understand, it is very important to prevent infiltration of Communists and to indoctrinate the troops concerning Communism and Communist methods and techniques Are you familiar with 'Peter s Manual'?

'Gen. Partridge No, I am not (Peter's Manual is the standard book of instructions for American Communists)

"Mr. Cohn. Do you know what that is?

"Gen Partridge No

"Mr Cohn Have you read 'The History of the Communist party of the Soviet Union ?

(This book is obligatory reading for all Communists)

"Gen Partridge No, there are many books I haven t read

"Mr Cohn Have you read 'State and Revolution ?

'Gen Partridge No

"Mr Cohn 'Foundations of Leninism' by Stalin or 'Towards Soviet America' by William Z Foster?

"Gen Partridge No sir"

— —

THERE WERE many other questions of the same fundamental nature, mostly questions which any Army intelligence officer ought to be able to answer.

Gen Partridge has been out of the United States most of the time and was unfamiliar with such questions and that would not matter much if he was in the infantry or artillery, but he was in intelligence, at the head of G-2, where it does matter So he was asked

"What, if any, works on Communism have you read or studied?"

He answered "Well, I haven't gone out and read works on Communism I have read Whittaker Chambers' book and on the boat coming home I read 'The History of Russia ' a more general history rather than a book on Communism

"The Chairman Who was the book by?

'Gen Partridge I can't remember."

— —

THIS IS NOT written to attack Gen Partridge, who probably never sought the intelligence job and would have preferred to do what he knows best how to do in the Army

He was instructed to serve in this position and he tried to serve Nevertheless, we face the fact that technical ignorance in high places leading to errors of judgment has cost the lives of our sons and the wealth of our nation

Something is wrong when it is possible for men to serve in intelligence offices who are not especially trained for the task Their evaluations guide higher officials

Reds at Gate

By Victor Riesel

Three flying hours from the United States, and only two flying hours from our Panama Canal, the Communist International operates a replica of the Red military machine which it camouflaged as an "agrarian reform" party in China before it took over the entire mainland

BIESEL

Just as that Communist machine in the Orient won by default so have the Soviets virtually defeated us without firing a shot in Guatemala. Now only swift military and propaganda aid can keep all of Central America from going Soviet in a few years.

This our State Department has known for years. To my personal knowledge it has been warned repeatedly by several authorities, including the most knowing of all, Serafino Romualdi, the AFL's Latin American expert, that the Soviets are using Guatemala as a vast base

There have been warnings of submarine landings, of the use of Guatemalan passports by Red operatives, of the seizure and control of the General Confederation of Labor by Soviet agent Lombardo Toledano, of private Communist airfields, and of arms and money shipments to Central American Reds as far north as Mexico.

— —

SO TOUGH is this network that all the countries near Guatemala have informed the US that they must guard their frontiers with heavy military contingents

The Soviets, operating in Guatemala, have been intriguing against Honduras, El Salvador, Nicaragua, Cost Rica and Panama in Central America and against Cuba and the Dominican Republic in the West Indies Our intelligence files are jammed with this information.

Soviet agents come and go about the Zocolo in Guatemala City, although it were Red Square in Moscow. For example, during the first week of May 1952, the Comintern sent a "rep' in by name of Comrad Ramirez He arrived by air from Mexico City. He called a secret conference of all Central American and Caribbean Communist leaders

Then this 45 year-old, well dressed, cultured agent got up and told the Comrades how to intensify their undercover anti US revolutionary activities in their respective countries The Dominican intelligence services passed this on to the US We did nothing.

— —

THERE IS a pro Communist Legion operating in Guatemala which receives its instructions and money through the Czech diplomatic mission there Its weapons are Czech In turn, this legion helps the military cadres of the labor federation now controlled by Toledano.

The link is now with Moscow alone There are reports of submarine landings and departures of Chinese agents too, who are specialists in land seizure

The Soviet intelligence services operate through the Guatemalan diplomatic offices in Paris traditional center of Russia s Western intelligence.

Moscow s influence is also powerful in the Guatemalan radio and press During the Korean war these media told the usual lies about our alleged 'germ warfare" This discredited film produced by Soviet ized Chinese accusing our forces of this type of warfare was shown in the public schools

And there are government schools to train Communist land reformers" and labor leaders

For the Guatemalans to shout complaints against those of us who have huge files crammed with evidence of Soviet dominance is the sheerest arrogance.

— —

FOR EXAMPLE, when the completely Communist-controlled Second Labor Union Congress opened at the Teatro America in Guatemala City this Jan 29, the government officially congratulated it for 'perfection of its organization and discipline which is evident in every one of its member labor unions . . "

When Stalin died last year the Guatemalan labor dictator, Victor Manuel Gutierrez, insisted that the national congress observe a minute of silence Then one of Gutierrez comrades called Stalin

"The champion of Democracy and a guide and teacher of humanity '

No one rose to object Some congress, indeed!

To top it all, it is virutally illegal to be anti Communist The presidential guard has shot down anti-Soviet students protesting the discharge of anti-Red members of the supreme court

Anti-Communist radio bradcasters have been beaten and arrested Anti-Communist youth and political leaders have been murdered — machine gunned in Capone style

The documentation is available It has been for several years now But apparently no one in our government cared much Now what are we waiting for?

Salesmen Needed

By Hal Boyle

NEW YORK

"If you're living you're excited, ' said John William Rollins "And if you aren t excited, you aren't living '

Life is getting more exciting all the time for Rollins, who learned to milk a cow at the age of 4 and now, at 37, is lieutenant governor of Delaware and runs business enterprizes that bring in 15 million dollars a year

HAL BOYLE

As a boy in Georgia he walked barefoot nine miles to school each day Today he flies 250,000 miles a year in his own airplane, can buy all the shoes he wants He controls a few automobile agencies, four radio stations, an electronics factory, and one of the nation s largest car leasing firms.

— —

ROLLINS IS a 6-foot-3 210-pounder who looks like a boilermaker In fact in his jack-of-all-trades career he was a boilermaker

'I've also been a farmer and a door to door vegetable peddler, he said 'And I've been a ditch digger, a road laborer a machinist, an ordnance inspector for the government a plant supervisor, a radio announcer, and a salesman—but I guess mostly a salesman.

"Whatever field you go into, it comes down to salesmanship You start selling when you re born, you quit when you die What is a baby doing with its first cry, except trying to sell somebody the idea it needs something?"

Rollins quit farming in 1935 when his entire crop for that year sold for only $20 He climbed slowly from job to job and got his real start in 1944 when he opened a car agency in Delaware with $1,000 he'd saved and $10,000 he borowed.

— —

NOW HE leases thousands of cars and trucks as a transportation specialist to firms in every state He also leases airplanes to executives of companies who don t want to tie up their capital by buying a plane

When he went into politics Rollins requested the State of Delaware to give no business to any of his firms and ordered his own executives to accept no state contracts

'Nobody ought to go into politics for personal gain," he said 'But I think every businessman who has been as fortunate as I have owes it to his town and state to participate in politics Politics is only as good as those in it '

— —

AS TO AMERICA'S business future, Rollins observed

"Businessmen ate high on the hog for 10 years, and some forgot how to sell They took too much from the customer for what they gave him, and now they'll just have to give him more for his money.

"We have to go back to selling in everything. There is nothing wrong with this country that a million good salesmen can't cure The people still have money in the bank,

'But some businessmen got into so many bad habits I don t know whether they can go back to being salesmen again But all that means is a bigger chance for the young fellow who hasn't learned any bad business habits "

Helps With Filing Returns

Internal Revenue Service Offers Taxpayers Advice

Taxpayers visiting the Marion office of the Internal Revenue service at 138 W. Center St. for help with their federal income tax returns should bring all necessary records with them, J. H. Sells agent in charge, said today.

He explained that internal revenue agents, when asked to help prepare a return, must have all date and records pertaining to the taxpayer's 1953 income, exemptions, and deductible expenses.

—:—

"IT IS ESPECIALLY important to bring all tax withholding statements received from employers," he said.

In order to speed up the filing of the returns, he asked that persons seeking assistance fill in their name, address, occupation, and social security number in spaces supplied at the top of the return. "This procedure will save us time and help prevent long lines at the office," Sells said.

The agents will give each tax payer as much assistance and time as personnel limitations permit, he promised.

Aim of the taxpayer assistance program is to help the taxpayers help themselves, but "we cannot give a blanket invitation to all taxpayers to have their returns prepared by our personnel," he explained.

—:—

IN FURTHER advice, he asked that data brought to the local internal revenue office be mathematically correct. If some expenses are part business and part personal, the taxpayer may deduct the business portion on Schelule C, Form 1040, but may not deduct personal portion, he said. Some personal expenses are deductible on page 3 of the rturn, he added. added.

The principal types of personal expenses which may be deducted are contributions to recognized religious and charitable organizations; medical expenses, in full if over 65, in part otherwise; state and local taxes and automobile license fees, interest on personal indebtedness; nonbusiness loses due to casualties; and alimony payments.

Sells pointed out there is a standard deduction of about 10 per cent of income which saves the effort of itemizing expenses. Some 45 million of the 58 million taxpayers used this method last year, he added.

Soprano To Sing Aria From Opera 'Barber of Seville'

The aria, "Una voce poco fa" from Rossini's "The Barber of Seville," will open Barbara Gibson's program Tuesday night at Harding High School. In this popular aria, the heroine Rosina tells gaily what a sweet and loving person she is if she has her own way and how she will turn into a veritable serpent if she is opposed.

The first group will include "Pastorale," by Carey, "My Lovely Celia," Munro and "Lo, Here the Gentle Lark," by Bishop.

Ravel's always popular "Habanera," will be included in her second group, as will that composer's fire aria from "L'Enfant et les Sortileges," and "Dos Cantares Populares," Obradors and "Granadina," by Joaquin Nin.

Concluding the first half of the program will be the Bell Song from "Lakme," Delibes.

The second half of the program will include two piano numbers by Miss Gibson's accompanist, Stanley Sonntag. He will play "Reflections in the Water," by Debussy and "Can-Can" from the ballet based on music by Rossini.

"Waltz," Medtner, "The Answer" and "Here Beauty Dwells," both by Rachmaninoff and "Snowdrop," Gretchaninoff, will be sung by Miss Gibson and she will close with Zerbinetta's aria from Richard Strauss' "Ariadne auf Naxos."

The program will begin at 8:15 p.m.

Police Blocked By TV Program In Milwaukee

MILWAUKEE (AP)—Milwaukee police reported it was impossible to make or receive telephone calls from their downtown Safety Building headquarters between midnight and 1 a.m. yesterday.

The reason: hundreds, maybe thousands, of local residents were jamming telephone lines in a bingo-type game conducted by a local television station. The television station is on the same telephone exchange as the police station.

Kal Ross, director of operations for WCAN-TV, said that between 100,000 and 150,000 persons play the game late Saturday nights. Viewers play at home and telephone the station when they think they have won a prize by filling out a line on card.

A spokesman for the telephone company said there were so many calls and so many of the callers refused to hang up when they got a busy signal that the dial system was jammed.

Dist. Atty. William McCauley, pointing out that the game is legal in Wisconsin, deplored the fact that the police station was cut off for an hour but said he doubted if much could be done about it.

Pistol Was Loaded

ST. PETERSBURG, Fla. (AP)—Patrolman Al Borque told this story of Claude M. Nash, 19, who pressed the trigger three times yesterday.

The first time nothing happened.

The second time nothing happened. Companions shouted, "Don't do it again."

The third time the .25-caliber pistol fired a bullet into his body and he died in a few minutes.

Borque said he did not believe Nash knew the pistol was loaded

Record Is Set in Number of Fire Calls; Chief Asks New Equipment, More Men

Fire loss in Marion last year was nearly seven times greater than for 1952 and was some $110 - 000 higher than the average for the last five years

In an annual report of fire department activities for 1953, Fire Chief Owen A Sifritt lists 1953 loss in a total of 602 city and township fires at $356 270 It was the largest number of fire calls at any time in the history of the department, the report noted

— —

IN THE PREVIOUS YEAR there were 127 fewer fires and loss was estimated at $53 942 Average loss of the last five years was $243 000 with highest year of all in 1950 when the total loss climbed to $630 298

To help insure against further increases in the losses this year and in future years Chief Sifritt made five recommendations for enlarging and bettering the department

First among his recommendations — which have been submitted to City Council for consideration — is the purchase of three new pieces of equipment These include replacement of a pumper truck housed at the W Center St station and trading in of a 1941 model chief s car The pumper truck was purchased in 1927 and is now in need of extensive repairs, the report stated Suggested replacement of the chief s car was on the bases that it will not long have any trade-in value left

— —

ANOTHER NEW piece of equipment recommended is an emergency truck equipped with a 300-gallon water tank and booster pump life saving equipment, short ladders, extra hose fire extinguishers and other small items of fire fighting and emergency rescue equipment

'It is further recommended that the personnel of the fire department be increased from 40 to 48 men' Chief Sifritt said

He urged the department be reorganized to provide two assistant chiefs and six lieutenants This reorganization was requested regardless of action taken on the increase of personnel

In his final recommendation Chief Sifritt repeated one which has appeared in his annual report for several years This is a request that two new fire stations be located in the eastern and southwestern sections of the city These are becoming more necessary each year because of the distance to these sections from existing fire stations and growing traffic problems which block quick access to them, Chief Sifritt said

— —

THE LARGEST FIRE of the year was at the Betty Zane Popcorn Co late in June when a set fire caused $163 370 property damage Paul Holverson 18 of Marion confessed setting this one and nine others in which the loss totaled $63 500 The youth has been committed to the Lima State Hospital

Most disastrous of the fires during the year was one which took the life of Joyce Robinson 3, at her home and another which severely burned Irene Bush 10 at her home. Both residences were destroyed

Seven other persons and 20 firemen were injured enough to require first aid or hospitalization from fires during the year

There were a total of 35 false alarms with 19 of them 'honest' and 16 of a malicious nature, the chief reported

— —

DURING THE YEAR four firemen resigned, one was promoted to capt in and five new firemen were appointed

Six new fire hydrants were installed and water mains were extended a total of 8 600 feet.

Total valuation of fire department property including all land, buildings and equipment was $154 - 370 a decrease of $3 175 from 1952. In addition the city has use of a township owned truck housed at the Mark St station valued at a total of $18 600 Cost of operation of all motorized equipment during the year was $1,313, according to the summary

Worst month of the year for number of fire alarms was October when 73 were answered June was second highest with 69

You'll be interested in the amazing new coverage available now in auto insurance For a small additional premium, the Medical Payments feature has been greatly extended

Under the standard Medical Payments clause you, or anyone riding with you, are covered for medical expenses (within the policy limit) arising from an accident, regardless of faults.

Earl J Andrews

The new Extended Medical Payment covers any resident member of your family, even as occupants of an auto you don't own. This includes busses and taxis Also, it covers accidents in entering or alighting from non-owned autos And, it extends to injuries from being struck by an auto while walking as a pedestrian or riding a bicycle.

Doesn't that sound like a feature you'd like in your auto policy?

Naturally, the new coverage can be sold only in the amount of the basic Medical Payments limit, ranging from $250 to $5,000 per person The cost is low, and only one charge is made regardless of the number of personal cars you own

We sincerely recommend the extended medical payments coverage Come in tomorrow and let us show you how little it costs to add this protective feature to an auto policy.

Local Resident Asks $104,376 In Damage Suit

A $104,376 damage suit, resulting from an automobile-truck collision last July 29 at the intersection of Marion County Roads 195 and 174, has been filed in Common Pleas Court. It was the second suit filed as a result of the accident.

It was filed by Melvin E. Bell of 265 S. Main St., against the U. S. Construction Co., a partnership consisting of M. W. Martin and W. E. Martin of Upper Sandusky, and Marion L. Stalter of Upper Sandusky.

Three weeks ago Stalter filed a petition against Bell asking $50,406 damages.

In Bell's petition asking damages from the Upper Sandusky firm and Stalter, the plaintiff declares that he was driving his automobile in a northerly direction on County Road 174, and that Stalter, an employe of the defendant company, was driving a U. S. Construction Co. dump truck loaded with crushed stone east on County Road 195.

In the collision of the two vehicles Bell was thrown against the steering wheel and dashboard of his car and "suffered severe physical injuries" including compound fractures, lacerations, and nervous shock, his petition alleges.

Following the accident he was a patient in Marion City Hospital until Sept. 6, and he will not be able to resume his normal occupation as a welder, his petition claims. As a result of the accident he has incurred hospital bills of $690 and medical expenses of $1,086.

The law firm of Wilhelm and Robinson is representing Bell.

Treasury Officials Seek Billion-Dollar Hike in Bond Sales

WASHINGTON (AP)—Treasury officials have told Congress they plan to stop pushing sale of the familiar $25 "E" bond and increase overall savings bonds sales by one billion dollars this year through concentrating on bigger denominations.

Earl O. Shreve, director of the savings bonds division, told a House appropriations subcommittee the Treasury plans to sell $5,500,000,000 in series "E" and "H" savings bonds this year, compared with $4,368,000,000 in calendar 1953.

E. L. Kilby, commissioner of the public debt, said the $25 bond has made up about 68 per cent of the number sold, but 52 per cent of all $25 bonds sold in one calendar year have been cashed in by June 30 of the following year.

By John Crosby

Dream Houses, Weather and Wit

Eric Hodgins has been — let's see now — a chemical engineer, editor of a children's magazine, advertising space salesman, general manager of a news magazine, best-selling author ("Mr. Blandings Builds His Dream House"), a member of the President's Material Policy Commission, a member of Fortune magazine's board of editors and, most recently, a radio commentator of rare charm and discernment on CBS (10 p.m. EST Thursdays.)

J. CROSBY

Hodgins' little 15-minute talks which he calls "A Minority of One," are the closest thing to an essay you're likely to find on the air. He takes a single subject—say, house-building or left-handedness or the weather or absent-mindedness — and just runs on about it, revealing a definite point of view and a surprising erudition.

-:-

HODGINS' misadventures with houses is well known, "Blandings" having been made into a successful movie, but it's comforting to know, as he revealed in one of his talks, that he's still having them. "The force that impels a man to build a house is a woman. The man has married the woman, or vice versa, and since the nest-building instinct resides in the female, the next thing you know you have a house."

From that launching point, Hodgins will go on to muse gently about the practice of building Cape Cod houses, which were designed to keep you warm, in the hottest parts of Texas, or building ranch houses, which were designed to keep you cool, in the coldest parts of Maine or of building split-level houses, designed for perching on hills, in Iowa where they have to build the hills to put them on.

I liked his story about the unpaintable walls, his latest mishap with houses, in which a painter suggested he take all the paneling off his walls and turn them backside. "The idea of turning the whole house inside out like a sock is intellectually interesting," he commented, "but so is the idea of turning the Empire State building on its side and adding four propellers to the stern."

-:-

KINSEY, HODGINS reports cheerfully, has picked only the second most universal topic of conversation. The first is the day after tomorrow; otherwise he lots of information He points out that when Gen. MacArthur was about to enter Japan he began his occupation proclamation with the words: "Weather permitting."

"Weather permitting," comments Hodgins, "he would come ashore and start being Conqueror day after tomorrow; othersise he would postpone. There wasn't even any talk about God willing. This was a practical operation."

Out of the "U.S. Yearbook of Agriculture" (Hodgins reads the darndest things), he plucks the information: "Man, during his geologically brief existence on earth, has never known a normal climate. We are now at the tail end of an ice age in a period of violence as great as any the earth has known. This was news to me. I had always thought the dinosaurs had it worse." I had thought so, too.

-:-

HODGINS IS A SWITCHED left-hander and the father of an unswitched left-hander so there may be more than a little personal rancor in his charge that southpaws are terribly discriminated against in a right-handed world.

"Pencil sharpeners, radiator knobs, pistols, saws, scissors and saxophones are all designed by right-handers for right-handers on the cruel, stuck-up, preposterous assumption that the world is all that way," he declares heatedly.

There is no such thing as a left-handed monkey wrench and lady southpaws can't even knit in peace. "When she marries and reaches the stage where she fumbles with tiny garments, she must reverse every instruction in the pamphlets that tell her how to knit. There are cases on record of women who have mothered families of six before finishing a pair of sox for their first born."

-:-

EVEN THE LANGUAGE, for portsiders is unfair, says Hodgins. "The words sinister and gauche are the Latin and French respectively for left and they have come to mean evil and awkward. But the right-handed world compliments itself by describing cleverness with the words dextrous and adroit, Latin and French for right."

If you can tear yourself away from the TV set for a minute you might try Mr. Hodgins for 15 minutes Thursday nights. You'll learn some spectacularly useless information and be vastly entertained.

Prisoner in Handcuffs, Chains Escapes Deputy

CINCINNATI (AP) —Police continued their search today for a handcuffed and chained prisoner who bolted from an Alabama deputy sheriff yesterday at the Union Terminal Railroad Station.

Patrolman Joseph Brown of the terminal police said Frank Norwood, 33, who was chained around the waist, escaped from the office of a loading platform as they were preparing to board a train. The deputy sheriff was transporting Norwood from Detroit to Montgomery.

About 10 million people in the United States have some form of heart or blood vessel disease.

Chief Clarifies State Directive On Liquor Ads

COLUMBUS, Ohio (AP) — Director Anthony A. Rutkowski today clarified a "reminder" to submit liquor advertising copy to a liquor department committee for review.

"The submission of advertising material shall be purely voluntary," a committee announcement said.

A "reminder" for advertisers of alcoholic beverages to submit ads to the committee for review brought a storm of censorship protests

Rutkowski said the "reminder" generally was misunderstood. People in the liquor industry thought it was a "must" order, whereas the matter is entirely voluntary, Rutkowski explained

The committee reviews advertisements on a voluntary basis to see that they comply with regulations of the State Board of Liquor Control b nning obscene and similarly objectionable ads, he add .

The "reminder" went out, he said, because of "a flood of advertising that was in apparent violation of regulations." Rutkowski did not elaborate.

St. Mary Drops 50-47 Decision to Lanky Delaware Visitors

Marion Wins Twice, Tightens Grip on Second Place

Grand Rapids Defeated 3-1; Home Streak Reaches Eight

The Marion Barons tightened their grip on second place with a pair of wins in weekend action. Marion noted a 3-1 win Saturday night at Grand Rapids and squeezed out the improved Milwaukee Chiefs here Sunday afternoon.

The 6-4 win Sunday before a Valentine Day crowd of 2,542 stretched the Barons' home streak to eight straight. Their last loss on home ice was to the Toledo Mercurys on Jan. 3. It also gave them a sweep of the home series against the chiefs. It was Milwaukee's fourth visit here and their fourth loss.

The win gave the Marion club a second-place total of 64 points. Toledo and Johnstown remained tied for third with 61 points after weekend action. Cincinnati's Mohawks are atop the league with 80 points.

The game marked one of the few times this season the Chiefs had led the Marion team. Roger Hayfield put his mates in the lead 1-0 after seven minutes and five seconds had passed. He scored after Nick Hill had pulled Lou Crowdis out of position and then passed to Hayfield.

That lead was overcome by Gordie Vejprava, Tony Poeta, and Dutch Delmonte, all with a pair of goals. Vejprava scored bith his goals in the first period to push Marion into a 2-1 lead. His first came after Claude Roy had batted away shots by Wimpy Jones and Delmonte. Vejprava batted it in from a scramble while Roy was sprawled on the ice. The goal came after 10:50. At the 17:44 mark, Vejprava was credited with a goal after the puck went into the net and then bounced out. Referee Mickey Drouilland ruled it was a score. Jones and Delmonte again were credited with assists.

The Barons sealed the verdict with a three goal uprising in the second period, two by Delmonte. The first came on passes from Vejprava and Wimpy Jones after slightly over four minutes had passed. Poeta joined the act after seven minutes and 37 seconds. He was assisted by Hal Jones and Kenny Schultz. Delmonte pushed in the winner with a minute and 55 seconds remaining in the period. He picked up a Milwaukee pass at his own blue line and skated down the ice alone. Roy was faked out of position at the last minute.

Poeta scored his secind after 7:28 of the final period before a brief uprising by the visitors. He scored after taking a pass from Hal Jones. Then the Cehiefs threatened with a three-goal burst in the final 11 minutes of action.

Dennis Smith started the bombardment after 9:28 had went by. His score came after Norman Kirk had taken a pass from Roland Spong and tried for the goal. Lou Crowdis batted the shot away and Smith shot from behind the goal line. The puck hit Crowdis' skate and bounced into the net for the score. Smith scored again less than a minute later. Harold McNamara set up the play by intercepting a Marion pass and passing to Kirk who skated down on Crowdis. Lou was pulled to one side of the goal and at the last minute Kirk passed to Smith who fired from the opposite side. Kirk ended the scoring when he scored on a combination pass from Smith and Maurice Lemirande with a minute and 45 seconds to play.

The Barons scored their sixth victory over the Rockets in seven games Saturday night, whipping Grand Rapids before 4,442 Rocket fans.

Marion scored once in each period with Harold Jones tallying twice. Sloppy passing helped set up the Rockets second straight defeat. Several times rushes fizzled as Grand Rapids missed passes. Center Herb Schiller netted the Rockets' lone goal, putting in a rebound at 8:00 of the third period. Helping Schiller were Roger Maisonneuve and Gaff Turner. Schiller's goal cut Marion's early margin to 2-1, but Jones, retaliated in a minute's time. He took a pass from Ken Schultz and drove the puck over prostrate Goalie Doug Coxon to make it 3-1 at 8:21.

Grand Rapids outshot Marion 18-4 in the final period.

Marion swept to a 2-0 lead at the end of the first period on goals by Joe Ingoldsby and Jones. Ingoldsby scored at 16:15 of the opening period. He shot a 20-footer past Coxon after picking up a trailer pass from Murray Wilkie. Also assisting on the goal was Phil Vitale.

Coxon stopped eight shots in the opening period while Lou Crowdis turned back 10 for Marion.

In the second period Jones bashed a rebound past Coxon at 10:31. Assisting in the play were Schultz and Ted Lebioda. Both teams were shorthanded when the second goal was scored. Coxon had seven saves in the second period, Crowdis five.

100-Point Spurt By Selvy Sets 3 New Records

By ED CORRIGAN

NEW YORK (AP) — Furman's fabulous Frank Selvy isn't through yet. The terror of the Carolinas—and darling of the professional scouts—steps on the court against Wofford on his home grounds tomorrow night and if he scores 17 points, the last of the major records within his grasp will be his.

Right now, Johnny O'Brien, the ex-Seattle sharpshooter, holds the single-season scoring high of 884 points for major colleges. Frank, who poured 100 points through the hoop against Newberry Saturday, now has 868 points.

With his 100-point orgy, Selvy accomplished the following:

1. Broke the single-game record of 73 points for a major college player set by Bill Mikvy of Temple in 1951.

2. Established an all-time career record for a college player with 2,197 points (in less than three years), breaking the standard of 2,154 made by Jim Lacy of Loyola of Baltimore (in four years).

3. Broke the major college record of 1,540 for two seasons set by Dick Groat of Duke.

4. Enabled Furman to score 149 points, seven higher than the previous one-game record set by Baltimore against Lynchburg earlier this season.

And what did Selvy have to say about it all?

"I didn't have any idea I was breaking any records. I knew I was hitting better than ever."

Frank's great show also might have long-range consequences. Furman now is very much in the running for a bid to the National Invitation Tournament in Madison Square Garden next month.

Despite Saturday's wave of upsets in which such behemoths as Indiana, Oklahoma A&M, and La Salle were defeated, the postseason picture remained about the same.

Thirty-six teams will play in the NIT and NCAA competitions—24 in the NCAA and 12 in the NIT. Duquesne, Dayton and Western Kentucky already are in the NIT. Furman probably will be invited as will Bevo Francis and his Rio Grande outfit (Bevo scored "only" 58 points against Salem Saturday).

Patterson Gets Nod To Win TV Boxing Feature

By MURRAY ROSE

NEW YORK (AP) — Undefeated Floyd Patterson is a 4-1 favorite to rack up his 19th straight victory tonight when he faces Yvon Durelle, former Canadian light heavyweight champion, at Brooklyn's Eastern Parkway Arena.

This is the first outing for the Olympic champion since he was chosen as Boxing's Rookie of the Year by the Boxing Writers Assn. last month. The award temporarily jinxed two previous winners, Rocky Castellani and Vince Martinez.

The 19-year-old Brooklyn Negro shouldn't have too much trouble, however, with the Canadian invader. Pat has fought better opponents, despite his youth and stopped Dick Wagner in his last start, Dec. 14. Durelle, making his New York debut, has won 59 of 65 fights.

Du Mont will telecast the 10 p.m., EST, eight-rounder to some parts of the country.

Remember the wild finish to the Rocky Castellani-Ernie Durando scrap in Madison Square Garden two years ago? That was the one in which the hopelessly trailing Durando conked the dancing Castellani with a right that knocked the ex-Marine cold. Casty got up at nine but Referee Ray Miller stopped the bout.

Then Castellani's manager, Tommy Ryan, assaulted the referee in the ring and lost his license for his hot-headed actions. Two years before that one, Castellani easily outpointed the Bayonne, N. J., socker.

They meet for the third time in the garden Friday night with Castellani, now the No. 1 contender, a 9-5 choice.

The 10 p.m., EST, tussle will be broadcast (ABC) and telecast (NBC) coast to coast.

Clarence Henry, returned to the first 10 rankings in the No. 8 spot, takes on Jimmy Slade, No. 3 light heavy contender, in the Wednesday night national TV show coming out of Washington's Capital Arena. Starting time for the CBS telecast is 10 p.m. EST.

Irish Overcome 12-Point Lag But Fall in 4th Period

By JOHN SHORT

A rangy Delaware Willis quintet beat off a last half rally by St. Mary Saturday night at the Coliseum to escape with a 50-47 decision.

With four players reaching above the six-foot mark the visiting Panthers threw too much height at Ray Robbins' Irish. Tom Hearn, 6-4 pivotman, gave Delaware control of both boards during most of the first half as the winners raced into a comfortable lead.

Andy Hall and Fred Terry, only two Willis cagers under six feet, each dropped in goals on long set shots to put the Panthers ahead before Jack O'Keeffe hit for St. Mary. O'Keeffe's tally came after the Irish had missed on seven attempts from the field. The taller team raced into a 17-7 bulge by the time the first period ended.

Irish Bottled Up

In the second period, the Willis defense managed to bottle up the St. Mary attack, with the exception of Mike Anderson. The Irish southpaw ace popped in 12 points in that period to keep the local team in contention. Roger Micheli managed to drop in one field goal and John Messenger and Jerry Ballenger each scored once from the foul line. With three minutes remaining in the half, Willis had boosted its lead to 12 points, 27-15. Five points by Anderson, Ballenger's free throw and Micheli's score cut the deficit to 29-23 at the half.

St. Mary shifted into a pressing defense in the third period to slow down the Delaware invaders and to creep closer. With 2:52 remaining, Micheli dropped in a jump shot to narrow the count to 33-31. Two attempts by St. Mary missed and Delaware retained its lead when Hearne and Messenger traded goals in the final minutes. The period ended 35-33.

Anderson Ties Score

Anderson scored in the opening seconds of the last frame to deadlock the game at 35-35 and a minute later Micheli shoved one in to boost the score to 40-39 Delaware. Then Anderson gave the Irish their only lead of the game at 41-40 with four minutes and 27 seconds to go. Dave Shively dropped in six points on hook shots from the foul line to boost the Panthers ahead 47-41 and seal the win.

The clock ended a comeback by the Irish after Micheli scored on a jump shot and Messenger dropped in a pair from the charity line.

Actually the Irish ended the game with a better shooting average than the Panthers. St. Mary connected on 19 of 48 field goal attempts for a 35 per cent mark. Delaware finished with a 32 per cent average. The visitors, however, got in 65 shots at the goal and connected on 21. The Panthers hit on 8 of 19 from the foul line, the Irish 9 of 22.

Mike Anderson, who finished the game with 25 points, hit on 11 of 19 shots. Micheli with 10 points,

Morrow Cage Tourney Set at Coliseum Floor

Morrow County's 1954 County basketball tournament opens Wednesday night on the Coliseum floor.

Opening round action in the single elimination tourney will send Iberia against Edison at 6:30 p.m.; Johnsville against Cardington at 7:45 p.m.; and Sparta against Marengo at 9 p.m.

The second session Friday night will shift to Mt. Gilead while the tourney semi-finals will be held at the Coliseum Monday night, Feb. 22.

Chesterville, which drew an opening round bye, will meet the winner of the Iberia-Edison game on Monday night at the Coliseum. In another contest that night, the winner of the Johnsville-Cardington clash will oppose the winner of the Sparta-Marengo tilt.

The county reserve tournament is also scheduled at Mt. Gilead Friday night, with Iberia meeting Edison and Marengo challenging Johnsville.

Chesterville copped the county league title with an 11-1 rating while Iberia and Johnsville tied for second spot with 9-3 marks. Sparta finished with a 6-6 slate and was trailed by Cardington and Edison, both with 4-8 logs, and Marengo, 0-12.

Crawford County Opens Tourney Action Tuesday

BUCYRUS — The Crawford County tournament will begin action Tuesday with three games at Bucyrus High School. North Robinson (4-13) will meet Tiro (6-14) in the opening tilt and Chatfield (12-8) goes against Holmes Liberty (4-12) in the middle clash. The opening night will be concluded with a game between Mt. Zion (17-3) and Lykens (14-6).

In Thursday night's action, the losers of the second and third games will clash in a consolation game. Sulphur Springs (16-5) will meet Leesville (9-13) in the second tilt and New Washington (14-7) will go against the Tiro-North Robinson winner.

Three Tilts Set Tuesday As Tournament Resumes

Marion County basketball tournament action resumes Tuesday night at the Coliseum with two games in the championship bracket and another in consolation play.

Caledonia faces Green Camp in the consolation opener at 6:30 p.m. while Morral takes on Claridon at 7:45 and Prospect meets LaRue at 9.

Winners of the Morral-Claridon and Prospect-LaRue games will tangle Feb. 20. The Morral-Claridon loser will play the Caledonia-Green Camp winner and the Prospect-LaRue loser will meet Waldo, both on Feb. 18.

Morral's league co-champions will pit speed against a taller Claridon quintet. The "Wildcats have beaten Pleasant, 53-47, and Martel, 76-25, in the tourney while Claridon has downed Meeker, 44-39, and Caledonia, 49-42.

Claridon's rebound strength, a major factor in both tourney wins, will get its roughest tests against Wildcats' John Craycraft, Clair Hensel and Jim Shifflet.

LaRue returns to action for the first time since beating New Bloomington, 46-43, Feb. 8 against Prospect. Coach Ted Dennison's crew must overcome Prospect's high-scoring trio of Bob Rodgers, Tom Hickman and Ron Wood to stay unbeaten in tournament play. Rodgers has collected 51 points in tourney wins over Waldo, 57-48, and Green Camp, 7-57. Hickman and Wood chipped in 21 and 15 against Green Camp.

Tuesday's consolation game pits two of the scrappiest teams in the tournament, Caledonia and Green Camp. The Donians bowed before Claridon's height, 49-42, in their first tournament game but shaded Meeker, 42-38, to avoid elimination. Green Camp pushed Prospect all the way Friday night before falling, 72-57, as Lou Finch scored 25 points.

Bowling

Vi Avery's 160 and Ann Miller's 418 led women keglers in the Mr. and Mrs. League at Marion Recreation Sunday. Men bowlers were paced by Joe Fabian's 208 and John Kayatin's 564. Team honors went to Indians with 644 and Joners with 1884.

Paul Hicks' 246 and Ernie Owens' 619 on games of 200, 193 and 226 led men keglers in the Palace Mixed Doubles League at Palace Recreation Sunday. Women were topped by Vickie Thomas' 162 and Emma Morris' 443. A total of five games of 200 or better were posted. Team No. 8 with 669-1925 led the teams.

Norman Cleveland hit 238 while Earl Cottrill totaled 616 to show the way in the Erie Railroad League. Cottrill hit 221 and 205 games in his high series. Other high games were turned in by Frank Miner, 214; Ivan Spires, 200; Herman Miers, 207; Jim Kunkle, 200; Bob Forsyth, 200 and 206; Clifford Drake, 210; and Charles Gruber, 204. Erie No. 6 copped team laurels with its 946-2695.

Seven games of 200 or better were recorded in the Palace League with Conner hitting 244 and Lornie Morris totaling 576 for honors. Pollak Hot Bed and Corner Bar both hit 944 games while Corner Bar totaled 2745 to lead the teams.

Ladies Commercial League keglers were topped by Dorothy Roberts' 177 and Ted Loyer's 510. The former hit a 489 series while the latter rolled a 174 game. Splits were turned in by M. Carpenter, a 2-7-10; M. Emptage, a 5-9-7; G. Tennant, a 5-10; and Sally Murray, a 4-7-9. Mel's Jewelers carded 755-2173 for team honors.

Steve Hanovich's 234 and a 580 by Earl Reid showed the way in the Cooler League. Team No. 8 with 888-2570 copped team honors.

connected on five of nine. During the slow first period, St. Mary hit on only two of 14 attempts from the field. For the rest of the game they hit an even 50 per cent.

Dick Sheets was the big gun for the winners with 13 points. Terry shoved in 11 and Shively had 10, 10.

The St. Mary reserves racked up a 39-24 verdict in the preliminary game. Building up a 10-4 cushion in the first quarter the future Irish held period leads of 16-10, 29-15 and 39-24.

Dave Kraft sparked the winning attack with 10 points. Dick Mounts was next with six. Davis popped in 12 for the losers.

End Season

St. Mary winds up its regular season with two games this week. Tuesday night the Irish travel to Knox County for a meeting with Fredericktown and Friday Marysville will be at the Coliseum. The Friday night game originally was slated for Saturday but has been rescheduled because of the finals of the Marion County Tournament Saturday night.

Union Tourney Opens With 2 Tilts Tuesday

RICHWOOD—Union County tournament action gets underway Tuesday at Marysville with Northwestern, county league champs, facing Byhalia in the opener at 7 p.m.

Second game at 8:15 p.m. pits Union, county league runner-up, against Darby.

Richwood will meet the winner of the Northwestern - Byhalia tilt in the opener Thursday night while Magnetic Springs will come back in the nightcap to take on the winner of the Union-Darby clash.

Consolation games Saturday night will be followed Wednesday night, Feb. 24, by the finals of the double-elimination tourney.

Northwestern and Union were seeded in drawings held Saturday noon in Marysville while Richwood and Magnetic Springs drew opening round byes.

Final county league standings found Northwestern winning with a 7-3 mark and Union second at 6-4. Richwood and Byhalia tied for third with 5-5 slates while Magnetic Springs came next with 4-6 and Darby finished last with 3-7.

Union copped the tourney last year with Richwood finishing in the runner-up position.

Easter Agrees to 1954 Contract With Indians

CLEVELAND (AP) — Luke Easter, big but brittle, came to terms today with the Cleveland Indians.

The Tribe's front office said the first baseman telephoned General Manager Hank Greenberg and indicated he was sending in his signed contract for the 1954 season.

Chances are that Easter, who is now 32 years old, took a salary cut. The Tribe, however, did not make public the pay terms.

"Because frankfurters, introduced into this country in 1883, were too hot to handle when cooked, they were slipped inside buns, thus creating the famous American 'hot dog'," says a filler item. It was several years later that vendors thought up the simpler idea of serving them cold.

Big Ten Cagers Eye Showdown In Title Chase

CHICAGO (AP)—The Big Ten basketball campaign is fast approaching the crisis stage for both Indiana and Iowa, and neither is going to have much time to get set for it.

In all probability the championship will be decided next Monday at Bloomington, Ind., in the only game of the season between the Hoosiers and Hawkeyes, who emerged from nerve-wracking contests Saturday as co-leaders. Each now has won eight Big Ten games and lost one.

But before they meet, both teams have other formidable opponents on schedule this week.

Iowa continues on the road from Minneapolis, where the Hawks left Minnesota limp in an 86-82 overtime victory Saturday, to Columbus tonight for a game with the unpredictable Ohio State Buckeyes.

Indiana, which suffered its first setback in the Big Ten at Northwestern, 100-90 in overtime, is at Lafayette, Ind., for a game with Purdue.

Then both must prepare for their Saturday games, Illinois at Iowa and Indiana at Michigan State.

In other conference games tonight, Northwestern is at Michigan and Minnesota at Wisconsin.

Illinois, idle tonight, shares third place with Minnesota by virtue of a 70-64 victory over Wisconsin Saturday. Rounding out the Week's Big Ten program were Ohio State's 97-77 conquest of Michigan and Purdue's 64-50 victory over Michigan State.

OSU Win Over Wolves Encourages Floyd Stahl

COLUMBUS, Ohio (AP)—With little else to hope for as the Big Ten basketball title race draws to a close, eighth place Ohio State still could play the role of giant killer.

Co-leader Iowa is in town tonight. Indiana, the other leader, comes in the 27th. On the 20th, Ohio State entertains third place Minnesota. Ohio State winds up the season at Iowa March 1.

Ohio State Coach Floyd Stahl figures Iowa will be tough, but he is not awed by Iowa's 8-1 record.

If Ohio State can play a relaxed game it might win, Stahl says. He was still exuberant over his team's 97-77 victory over Michigan Saturday. Although that game brought Ohio State's conference mark up to only 3-7, Stahl viewed the game as important since it produced a well-knit Ohio State team performance for the first time this year.

Hutchinson Top Golfer

MIAMI, Fla. (AP)—Freddie Hutchinson, manager of the Detroit Tigers, is the new golf champion of major league baseball.

Freddie spotted pitcher Lou Kretlow of the Baltimore Orioles an early 2-hole lead, then came back to defeat him 2-up in yesterday's finals of the National Baseball Players Golf Tournament.

Ohio College Basketballers Seek Clinchers This Week

By FRITZ HOWELL

COLUMBUS, Ohio (AP)—This is the week of decision in Ohio college basketball.

Before next Sunday, league championships may be wrapped up by Toledo, Findlay and Marietta—and Marietta may have the statewide title in the bag.

Toledo, atop the rugged Mid-American Conference with an 8-2 mark, goes against Kent State and Ohio U. — both former victims—and a victory over either would clinch at least a share of the laurels for the Rockets.

Marietta, pacing the state with 16-1 while the rest of the pack have lost at least 4, has a 9-0 mark in the Ohio Conference with Muskingum and Hiram still to play. The Pioneers, paced by the sensational Mark (Buzz) Davis, have triumphed over nine different league opponents, and only ninth-place Ohio Wesleyan and last-place Heidelberg are not on the river city team's schedule. Wooster currently is in second place with a 7-2 record, but has 5 to play, so Marietta needs only 1 victory to take the title.

Findlay, out front in the little Mid-Ohio with 8-0, can clinch the championship by beating fourth-place Ohio Northern (4-5) tomorrow night. Findlay already is assured of at least a tie for the league title.

The conference championship tilts are part of the week's 48-game program in which Ohio teams will meet 20 out-of-state opponents. Also on tap are 7 games in the Mid-American, 3 in the Mid-Ohio and 10 in the Ohio Conference.

Last week the Ohio clubs won 14 and dropped 7 against out-of-state clubs, boosting the Buckeye record to 132 wins, 114 losses and a scoring edge of 18,807 to 18,106 against the outsiders. Host teams, winning 36 of 55, gave the home teams a 300 to 176 advantage over visiting clubs for the campaign.

Rio Grande's' big Bevo Francis, with 59 points against Anderson, Ind., and 58 against Salem, W. Va., hoisted his 22-game total to 1110 points, an average of 50.45—just a shade better than his 39-game average of 50.1 which was not recognized last year by the NCAA.

In other action last week, Dayton University accepted a bid to the NIT tourney in Madison Square Garden after bowling over Loyola of New Orleans, Miami and Louisville.

First Round Church Champions Clipped 56-50 by Calvary Team

The YMCA Church Basketball Loop gave early indications in the second round that the league championship is still a toss up as Calvary Evangelical opened the second half of the season with a 56-50 over Trinity Baptist. Trinity captured the first round championship without dropping a game in the first five weeks of play. However Calvary's win and the recent showing of the strong Epworth and Wesley gave indications that the championship is within the reach of the league's four top teams.

Trinity led Calvary during the first half but dropped behind in the third quarter as the winners scored 16 points to Trinity's seven. Calvary kept its hot streak alive in the final eight minutes by adding 17, a deficit which the first round champs could never meet. Bud England paced Calvary with 20 points while Don Dutt scored 19 to lead Trinity's scoring attack.

In other games played Wesley hit the season's high in Church League scoring with an 81-45 victory over Church of the Brethern and Epworth dumped Rural Salem 55-46. Everyone in the Wesley lineup got into the scoring act as the three time champions of the Church League jumped to an early 23-8 first quarter lead and never were pushed. Jim Seiter and Ken Comstock tied for scoring honors with 17 each to lead Wesley while Robbie Miller kept the Brethren in the game with a 21 point output.

Epworth was put to the test for three periods by Rural Salem but emerged with a strong final period to win 55-46. The Salem crew matched the Epworth team bucket for bucket until late in the third period when the winners took a 39-35 lead. Epworth went to work in the final quarter with a series of quick buckets to ice the game with four minutes remaining. Merle Daum with 14 points was high for Epworth while Gruber with 17 lead Rural Salem.

Because of numerous inquiries, all Church League teams were requested this morning to stand by for either a confirmation or change relative to next Saturday's schedule which is scheduled at the same time as the Marion County Basketball tournament finals. The YMCA Basketball Committee is scheduled to meet Thursday to decide on Saturday's games.

Sycamore Finishes 22-Game Schedule On Undefeated List

SYCAMORE — Sycamore High School completed its regular basketball season here Saturday night, winning its 22 straight. Mt. Zion, Crawford County champion, was the victim 74-48.

Mt. Zion built up a 15-12 edge in the first period but by the intermission had dropped behind 36-25. From there the local squad raced into a 52-36 bulge at the start of the final period.

Four of the Sycamore starters finished with double figure scoring totals. Dan Bogard showed the way with 24. Don Hannum had 19. Vaughn Shell 17 and Leon Shell 10. Kuhn was high for Mt. Zion with 16.

The Mt. Zion reserves took a 42-25 decision in the preliminary game.

SYCAMORE 74

V. Shell 6-4 16; L. Shell 5-0-10; Bogard 11-2-24; Hannum 8-3-19; Weaver 2-1-5.

MT. ZION 48

Stoddard Returns, Plans Early School for Golfers

Jack Stoddard, golf pro at the Marion Country Club, has returned to Marion and is giving private lessons prior to the start of the regular golf season.

The golfing school will be held at the indoor driving range on the third floor of the Jim Dugan Store. Anyone wishing to get a jump on the weather may contact Stoddard at 2-0512 for a lesson appointment.

Hanson Nips Zaharias

ST. PETERSBURG, Fla. (AP) — Making the most of a sparkling putting game, Beverly Hanson beat Babe Zaharias on the third hole of a sudden death playoff to win the 54-hole St. Petersburg Women's Open Golf Tournament.

Miss Hanson, who plays out of Indio, Calif., made a nifty second shot and canned a 10-foot putt on the 21st hole yesterday for a birdie 3 and the victory over Mrs. Zaharias from nearby Tampa.

Guess we lead the wrong kind of life. At least a recent check shows we still have 32 of the 50 calling cards we started out with 25 years ago.

Hal Newhouser Eyes Tribe Job

DETROIT (AP)—Veteran lefthander Hal Newhouser, who was released by the Detroit Tigers last season after nearly 15 years service, said today he will try a comeback with the Cleveland Indians this year.

Newhouser said he and Hank Greenberg, Indians general manager, worked out an arrangement today whereby Newhouser will report to the Indians spring training camp at Tucson, Feb. 24.

"I'll be just like a rookie getting a tryout, for I have not signed any contract with the Indians and we will not discuss one until I see if my pitching is still good enough to make the team," Newhouser explained.

NEW ITALIAN PRIME MINISTER. New Italian Prime Minister Mario Scelba (left), receives congratulations from President Einaudi after taking the oath of office at the Quirinal Palace in Rome. Scelba, an arch foe of communism, must still get a vote of confidence from the Italian Parliament. If and when he gets that vote he plans to place the question of the ratification of the European Defense Community Treaty at the top of his legislative program.

N.Y. Stock Quotations

NEW YORK (AP) — Strong cross-currents of buying and selling in a small group of stocks—including New York Central—swept the stock market today into an irregular tangle of gains and losses.

New York Central failed to open until well into the third hour of trading as a log jam of buying orders hit the floor of the New York Stock Exchange and found no comparable number of sellers.

Governors of the exchange halted all trading in the stock on the exchange until they could match the orders and arrive at an equitable price. Two hours and twenty minutes after the opening of the market, New York Central opened on a block of 65,000 shares up ⅜ at 26.

Demand for Central stock arose from the proxy fight launched by the Robert R. Young interests in their attempt to gain control of the railroad. Speculators and others are buying the stock in the belief that it will go still higher as Young and the management attempt to add to their holdings of common stock, each share of which has one vote.

Also higher were Montgomery Ward, Boeing, United Aircraft, the Lackawanna Railroad, Pan American World Airways, and 20th Century-Fox.

Lower were Reynolds Tobacco "B," Liggett & Myers, American Tobacco, Chrysler, Goodyear, Consolidated Edison, and General Electric.

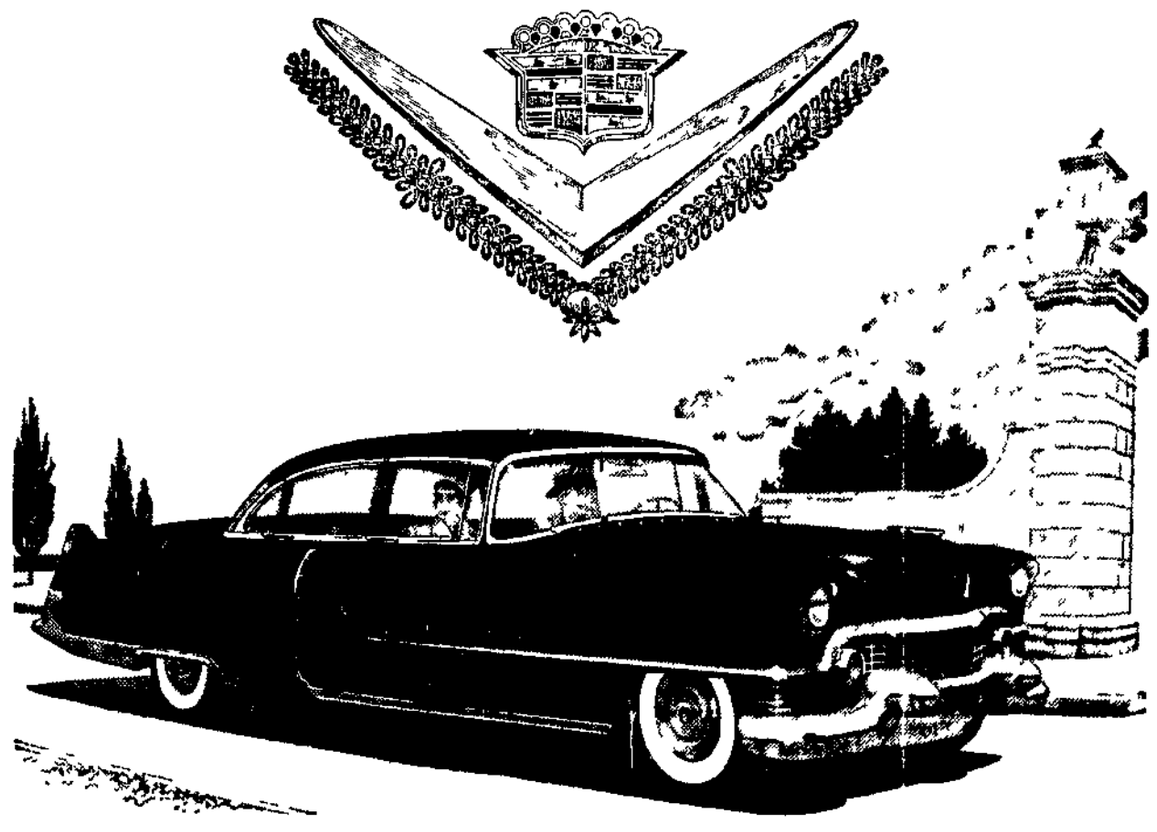
Cadillac



Expect It to Be Copied!

The beautiful new 1954 Cadillac is now in our showroom—and this is an automobile that every American motorist should *see* . . . and *inspect* . . . and *drive!*

They should do this, first of all, because it will give them a better understanding of the things by which to judge the world's motor cars. And they should do this, too, because it will give them a revealing glimpse into the future of automotive design.

For it can be said, with the full support of historic precedent, that much of today's Cadillac will find its way into the cars of tomorrow.

Cadillac's sweeping new lines, its new proportions of glass and steel, and its many superlative new details of design will unquestionably have a profound influence on automotive stylists the world over.

The new roominess of Cadillac's interiors, the new beauty of its appointments, and the new richness of its fabrics and leathers will give the industry completely new standards of comfort and luxury.

And Cadillac's great new power and responsiveness, its wonderful new handling ease and its incredible smoothness of operation are certain to serve as engineering guideposts for years to come.

But imitation is one thing—duplication another. And no amount of imitation could ever produce Cadillac's happy combination of brilliant styling, extraordinary luxury and magnificent performance.

Nor could it bring to another motor car Cadillac's unprecedented acceptance among the world's motorists . . . the feeling of pride that comes to the man who sits behind its wheel . . . or its reputation as the Standard of the World.

These are Cadillac "exclusives"—hard won through decades of motor car leadership, and through undeviating adherence to the highest ideals of automotive production.

• • •

We repeat—you ought to come in and see the new 1954 Cadillac. For it is Cadillac's annual report to the nation on the progress of American motor car design—and the news has never been so exciting!

You'll be most welcome at any time.

Tips on Preventing Auto Skids Listed

PHILADELPHIA (UP)—Edward P. Curran, safety director of Keystone Automobile Club, reminds motorists of two established rules to prevent skidding on slippery roads.

Curran advises a light foot on the brake pedal and swerving the car in the direction of the skid.

"Too quick or heavy - footed braking causes most skidding," he said. "By removing the pressure on the brakes the cause is eliminated, but the effect may continue and the best thing to do is steer in the direction of the skid.

"Many drivers become panicky when their cars start to skid and jam on the brakes in a desperate effort to stop the machine.

"Steering into the skid means simply that if the rear wheels slide to the right, the car should be steered in that direction. The impulse to apply the brakes harder when a car slides off on a tangent must be resisted, because a smashup is virtually inevitable unless the skid is gotten under control."

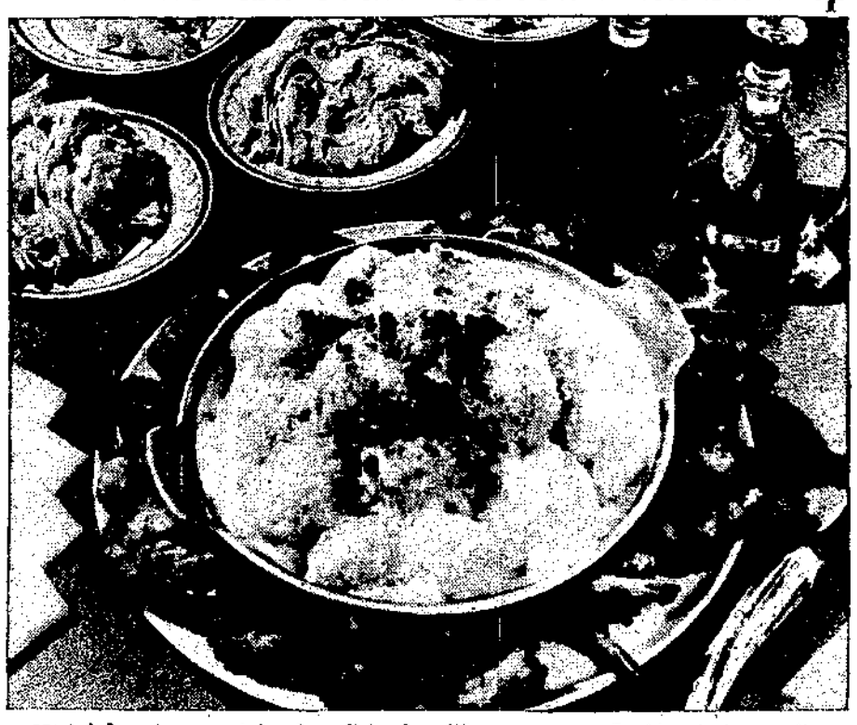
Cauliflower Au Gratin Served With Shrimp



A suggested Lenten meal is cauliflower au gratin surrounded by breaded fried shrimp. Piping hot, it makes a delicious meatless dinner.

With it, serve a salad of lettuce with French dressing and a fruit dessert. Even the heartiest meat eaters will feel satisfied with this combination.

To prepare the cauliflower au gratin use:

1 small head cauliflower, separated into florets
2 tablespoons quick-cooking tapioca
1 teaspoon salt
⅛ teaspoon paprika
2 cups milk
1 cup grated American cheese
1 cup buttered bread crumbs

Cook cauliflower in boiling, salted water 12 minutes, or until tender. Drain and place in greased baking dish.

Combine tapioca, salt, paprika and milk in saucepan. Place over medium heat and cook until mixture comes to a boil, stirring constantly. Remove from heat. Add cheese and stir until cheese is melted. Pour over cauliflower, sprinkle with crumbs, and bake in moderate over (350 degrees F.) 20 minutesl or until crumbs are browned. Makes 6 servings.

Omaha, Nebraska. Population 251,117

Each month we are adding an Omaha to our population

LAST YEAR, the average monthly increase of our population was 225,000—representing a city roughly the size of Dayton, Ohio; Richmond, Virginia; Omaha, Nebraska; or Long Beach, California.

This great population growth is one of *many* exciting changes in America during the last decade. Our whole scale of living has been changing, too. We have been building more homes, getting more education, making more money. As a result, we now have much more to protect.

And the life insurance business is keeping pace and is constantly growing more flexible to meet our new needs.

The life insurance companies are continuously making life insurance available to more people. Constant study of health and occupational hazards has shown that insurance protection can be offered to hundreds of thousands who could not have qualified under standards of some years ago. Today, 97 out of every 100 applications are accepted.

All told, there are 90 million policyholders in America. They own life insurance primarily to cover the expenses that occur at death and to provide an income for their families. Beyond that, they are using it to make sure the mortgage will be paid off, or to assure funds for the children's education, or to provide retirement income.

* * *

A suggestion: Have your needs or circumstances changed? Have you looked over your life insurance to see how it stacks up with your present way of living and the goals you and your family have set for yourselves?

Hall To Be Rebuilt

Women's Clubs Seek Aid With Restoration Project

Letters went out over the weekend to approximately 100 Marion County organizations asking their cooperation in helping to finance the restoration of Independence Hall in Philadelphia, a nationwide project being sponsored by the General Federation of Women's Clubs.

Cooperating in Marion city and county is the Marion County Federation of Women's Clubs of which Mrs. J. Edwin Probst is president.

Civic, fraternal and educational organizations are being contacted in the interest of the project, Mrs. B. N. Salzman, chairman of the committee, reported today.

—:—

PUBLIC, PAROCHIAL and county schools have been taking part in the fund raising project for the past several months and contributions to date total about $300.

The public schools have reached their goal of $100 and will be enrolled on the honor roll which is to be a part of the restoration program. Pupils in the county schools are within sight of their goal and students in St. Mary Parochial School are in the process of raising their money and also are participating in the essay contest, "What America Means to Me," one of the educational aspects of the project.

Individual contributions also will be welcome, the committee reports.

Members of the more than 30 individual clubs in the federation also are engaged in fund raising projects in their own groups in the interest of the restoration program. All funds raised locally will be forwarded to the General Federation treasurer in Washington, D. C. with a record of the name and address of the organization or individual in whose name the contribution is made.

The national goal is $250,000. The nationwide project was launched when it was realized that the old state house was not merely a city or state monument, but rather a national shrine, the sponsors explained. Since many parts of it were in a deteriorated state, a group of Philadelphia patriots in the 1940's took action and placed the custody of Independence Hall and part of the surrounding neighborhood in the hands of the federal government for the enjoyment and inspiration of the American people. Independence National Park System became active in January of 1951.

Money which has since been appropriated by the federal government is for the development of the mall surrounding Independence Hall and for the general maintenance of the buildings. In order to restore the first floor of the hall it has become necessary for public-minded people wishing to preserve the nation's tradition and heritage to contribute funds to carry on the program. Research is now being made to furnish the hall with original or authentic reproduction of the exact furnishings of the period of the signing of the Declaration of Independence.

—:—

APRIL 30, this year, has been set as the deadline for contributing to this worthwhile project, the committee announces. Groups or individuals contributing $100 or more will be listed on the permanent honor roll to be placed in the hall when the restoration is completed.

Serving with Mrs. Salzman on the committee are Mrs. Jess Stewart and Mrs. Forest Flockencier. Information may be obtained from Mrs. Salzman, Americanism chairman of the federation. Funds should be made payable to the Marion County Federation of Women's Clubs and labeled "Independence Hall Restoration."

IN SQUABBLE. Marilyn Taylor (above), shapely dancer in the TV show of comedian Jackie Gleason, was in a squabble with Gleason's estranged wife, the New York Daily Mirror reported. Mrs. Genevieve Gleason dropped in Sunday to see her husband in Doctors Hospital where he was propped up with a broken leg. She founnd Marilyn visiting there, the newspaper reported, and pow!, away they went!

Ohioan Opens House Hearing On Aid to Roads

WASHINGTON (AP) — The House Public Works Committee opens a hearing today on a new roads programs, calling for record federal spending and backed by President Eisenhower.

The bill's author, Rep McGregor (R-Ohio), will preside, since he is chairman of the committee's roads subcommittee. He said he hopes to complete the hearings in two or three days, possibly holding an extra session tonight.

At his news conference Wednesday, President Eisenhower said he favored boosting annual federal spending in helping states build roads by 225 million dollars a year.

This is approximately what McGregor's bill would do. The ceiling now is 570 million dollars in state aid. The bill under consideration hikes that figure to 900 million, and authorizes about 64½ million more annually on strictly federal roads.

The new roads law would go into effect July 1, 1955, and continue for two years.

"We've had a lot of reaction on this bill from the country," McGregor told reporters. "Most of it is good—better than I expected." But he said some people still feel the federal gasoline tax should be allowed to go down a ½ to 1½ cents a gallon, as scheduled April 1.

This reduction is opposed both by the President and McGregor bill supporters, since the 910 million dollars collected annually on this tax finances the federal roads program. McGregor said if the reduction went into effect, revenues would go down to a point where any bigger roads program would be out of the question.

Revival To Continue

Revival services in progress at the Wesleyan Methodist Chapel at E. Mark and Jefferson Sts. will continue this week with Rev John Woodward, pastor — evangelist in charge. Children's services are each night at 7, conducted by Robert Jones and Miss Lois Jones of Marion. The nightly preaching services are at 7:45. Sunday services at the chapel have been changed from an afternoon schedule to morning and evening with Sunday School at 9:20 a.m., followed by worship at 10.30, and evening worship at 7:45.

Eight-Fold Boost In Opium Seizures For 1953 Reported

WASHINGTON (AP) — An eight-fold increase last year in seizures of raw opium—principal source of heroin—has been reported by the U. S. Customs Service.

In testimony before the House Appropriations Committee, Dep. Customs Commissioner Chester A. Emerick said in the fiscal year ended last June 30 customs officers seized 3,857 ounces of raw opium as it was being smuggled into the United States.

This, he stated, was more than eight times the amount seized in the previous year and the largest quantity seized in any year since 1948.

Seizures of marihuana, virtually all from Mexico, totaled 25,370 ounces, he said.

Emerick reported on the illicit drug traffic in budget hearings made public today.

There are more than 20,000 recorded earthquakes on earth in a year.

THE BACK-PEDALLING SNOOSE

can't see where he's going because he's so in love with where he's been

The SNOOSE is a manufacturer who plays it so safe that he pedals backward to keep his eye on where he's been. Naturally he can't see where he's going.

He would rather linger over his tiny past successes than feast on the big ones he could have. And if his advertising methods are out-of-date, so what? They've been safe so far, haven't they?

Fortunately the SNOOSE is rare. Most manufacturers look ahead to increasing sales.

They know that the best way to sell more products is to *convince more people*. And, since *all business is local*, they advertise in newspapers . . . because only the newspaper reaches just about everybody in town.

They know that when the newspaper moves into the living room, the family devours the news, the features, and the *ads* with *equal* enthusiasm.

No wonder manufacturers increased their newspaper advertising 12.8% in 1953* — an all-time record.

No wonder retailers continue to spend 85% of their ad dollars in newspapers.

All business is local . . . and so are all newspapers!

Tax Payments To Be Made at Village Banks

For the convenience of taxpayers residing in the county, representatives of the treasurer's office will be stationed at several village banks today, Tuesday, and Wednesday, Treasurer Marion E. Hinklin reported.

Tax payments will be accepted today and Tuesday at the following places:

The Caledonia Bank in Caledonia, residents of Claridon, Tully and Scott Townships.

The Campbell National Bank in LaRue, for residents of Montgomery, Bowling Green, and Grand Townships.

The Citizens Bank in Prospect, for residents of Prospect Township.

The Peoples Bank in Green Camp, for residents of Green Camp Township.

Tax payments will be accepted Tuesday and Wednesday at the National City Bank in Waldo from residents of Waldo Township.

Tax books close on March 1.

Moulders Split on Pact, Walkout by 3,000 Off

CINCINNATI (AP) — Some 3,000 AFL moulders were at work today at 22 southwestern and northern Kentucky foundries because union voters divided equally on accepting a new wage agreement.

Union spokesmen said a strike was set for last night. But when the ballots were counted yesterday 400 were for the wage proposals and 400 were against them, reported Nichols D. Smith, international secretary of the union.

Involved were the three molders locals at Cincinnati, Hamilton and Dayton and the Miami Valley Foundrymen's Assn.

The wage proposals were not disclosed.

Mental Institution Patient Is Fatally Beaten by Inmate

CINCINNATI (AP)—A spokesman for Longview Hospital said today he believed no charges would be pressed against a patient suspected of beating to death a woman in the same ward of the mental institution.

Mrs. Georgia Downing, 52-year-old Cincinnati widow, was beaten to death in her bed yesterday. Homicide detectives said the arm of a chair probably was used in battering her skull, face and body.

Hospital authorities said the two women had quarreled shortly before Mrs. Downing was found moaning in her bed.

The identity of the suspect was not disclosed. Police said she denied the beating but was unable to explain her blood-stained bathrobe.

Both women were suffering from schizophrenia.

Church Women To Make Plans for Day of Prayer

"World Day of Prayer Around the World," a filmstrip portraying the 1952 observance, will be shown when the Marion County Council of Church Women meets Wednesday at 2 p.m. in the chapel of First Presbyterian Church. Mrs. Darrell Vermillion, world missions chairman, will announce final plans for the Word Day of Prayer observance here on March 5.

Mrs. Richard Stack will present the immediate needs of the migrant work in Ohio, and the offering taken will be sent to further that work.

Women of First Presbyterian Church will be hostesses to the group. Mrs. Ralph Heishman, president of the Presbyterian Women's Association, will give the welcome, and devotions will be by Mrs. E. W. Warwick. Ushers will be Mrs. G. C. McCreight and Mrs. Glenmore Hawkins.

Women of all churches have been invited to share the interchurch fellowship of these meetings, Mrs. Fred Dutt, president, said.

Underwriters To Meet

"A Look at Industry, Time Control, and Job Evaluation" will be the topic under discussion Wednesday when members of the Marion Association of Life Underwriters meet at noon at the YMCA.

Speaking on that subject will be Joe Springer, industrial engineer for the Universal Cooler Division of Tecumseh Products.

The stunning new 1954 Buick CENTURY Riviera.

(horsepower)
200 HP makes BUICK's CENTURY the power buy of the year!

The sensational Buick CENTURY is available for 1954 in a full line of models including the completely new all-steel 4-door, 6-passenger Estate Wagon shown here.

NO OTHER CAR GIVES YOU ALL THIS:

GREATEST STYLING ADVANCE IN YEARS with completely new bodies across the board; lowered rooflines, longer and higher fender sweep, exclusive sweep-spear design

BIGGEST VENTILATION ADVANCE in Buick interior comfort: new, screened intake just below windshield brings in huge quantities of outside air at hood-high level, freest of road heat and fumes

NEWEST VISIBILITY ADVANCE with backswept windshields that give 19% more visibility; greater glass area around full 366° arc

FINEST MILLION DOLLAR RIDE — from all-coil springing, torque-tube drive, longer wheelbases — and a new front-end geometry that stabilizes "cornering," insures more positive control, more responsive handling

HIGHEST V8 HORSEPOWERS in Buick history — from advanced vertical-valve V8 engines with up to 8.5 to 1 compression and 200 hp — plus more fuel efficiency from new Power-Head Pistons

—PLUS THE WIDEST SELECTION OF MODERN FEATURES—either as standard equipment or extra-cost options:

TWIN-TURBINE DYNAFLOW • SAFETY POWER STEERING • AUTOMATIC-BOOSTER POWER BRAKES
POWER-POSITIONED 4-WAY FRONT SEAT • DRAFT-FREE AIRCONDITIONER • POWER-OPERATED RADIO ANTENNA
EASY-EYE GLASS • WIRE WHEELS • ELECTRIC WINDOW LIFTS

It has sports-car smartness and sports-car snap.

It combines sports-car compactness with Buick roominess — six-passenger big.

And for sports-car performance, this spectacular CENTURY *rolls off the assembly line with a 200-hp V8 engine and a trim 3852 pounds — highest power-to-weight ratio in Buick history.*

But — what does all that horsepower get you?

It gets you brilliant performance. It gets you more economy. It gets you added safety.

At the wheel of a Buick CENTURY, you find getaway more responsive, cruising more pleasant, hill-climbing so nimble you feel you're on the level. Your engine is normally working at just a fraction of its capacity. You have a tremendous power reservoir to call on in sudden emergencies.

And beyond this, you have the lowest-cost automotive horsepower in the land. *For in the popular-priced Buick* CENTURY, *you are buying more horsepower per dollar than you get in any other car in America.*

Come in and try this glamorous new Buick beauty soon. It is, by all odds, the power buy of the year.

Sticks, Stones and Words

Nothing is likely to come of it, but President Eisenhower's earnest wish in his latest press conference for moderation in partisan politics is shared by great numbers of his countrymen.

No one has suggested that political parties should not be held strictly accountable for their errors. The only question raised in the press conference when President Eisenhower appealed for moderation was whether he thought it was all right to go to extremes of abuse, even to allegations of treason.

As the President pointed out, no one was more slandered than George Washington, who is by hindsight one of the few patriots who should have been immune to slander.

Abraham Lincoln was the butt of some of the most contemptible ridicule ever used in American politics. And surely the Democrats, wincing under savage onslaughts, cannot have forgotten what their cynical assassins of public character did to a man now one of the most respected of Americans, Herbert Hoover.

A moral may have been implied by President Eisenhower's reference to George Washington. History sits in judgment on all men who play a role in public affairs. It ranks them according to size.

George Washington is remembered. The political midgets who tried to degrade him have been forgotten, except for the mean and unworthy parts they played.

They've Seen the Queen

If there were Britons who had forgotten what the throne stands for in its 20th century version, Queen Elizabeth's tour of the empire has been a powerful reminder.

Hundreds of thousands of their queen's loyal subjects are turning out to see her in every city she visits. Her journey through the southern hemisphere this winter has caused a vast migration of human beings who were willing to travel great distances for one glimpse of this lovely young woman who stimulates the pride of association which is the backbone of the British commonwealth.

The Queen is a symbol of revived hope, of new viewpoints and of tried and true principles of government and human deportment. As she makes the queenly progression that will take her before the eyes of most of the 600,000,000 human beings in the British commonwealth she is one of the most powerful rebuttals to the dialectics of the Communist conspirators.

They have nothing to match the influence of her symbolic position as the head of a worldwide association of nations voluntarily joined together in the service of the Christian ideals embodied in her life and the lives of her father and grandfather.

They have no counterpart for the symbolism of a young vice president of the United States, Richard M. Nixon, who also made a journey this winter to remind men of ideals hateful to conspirators who preach that heads of government are answerable only to themselves, not to their Creator, not to their fellowmen.

No Dollars, No Sense

The secretary of agriculture, Ezra Taft Benson, was making a speech in Nebraska the other day. The farm problem, he told his listeners, is too serious for politics.

The pileup of farm commodities under a price-support program that made commodities too expensive to buy was making no dollars for farmers and no sense for consumers, he pointed out. Actually, the accumulation of such things as butter, eggs, corn and wheat did not represent a surplus at all but only a deception on farmers and an imposition on consumers.

Referring to butter, the secretary of agriculture said it was silly for the government to own 260,000,000 pounds of butter bought with taxpayers' money at a price so high the taxpayers couldn't afford to buy it back; i.e., to pay for the butter twice.

These would be strong words anywhere but especially so in Nebraska, heart of the farm belt. They reveal something about Secretary Benson which, in turn, reveals something about the Eisenhower administration.

It is daring to do what is supposed to be automatically fatal to a national administration—challenge the New Deal-Fair Deal assumption that the farm vote can be bought outright with public money.

Mr. Benson thinks he knows farmers. He believes there is tremendous significance in the fact Farm Bureau spokesmen have dared to say they are opposed to price supports. While it is not his recommendation that supports be abolished, only made flexible, he does recommend in effect that Washington should re-establish a natural market for farm commodities.

Butter manufactured for storage in government warehouses does no good for its producers, for the government or for consumers who are not eating butter because the price is out of line with what they can afford to pay. When a secretary of agriculture dares to say that to an audience in the heart of the farm belt, something has happened to the cynical credo that the only way to a farmer's political support is through the Commodity Credit Corp.

State Department Security Boss Cleans House

WASHINGTON

Life wasn't exactly quiet for W. R. Scott McLeod when he stayed mum. It's even less so now that he's talking.

He said little—publicly—for almost a year after Secretary of State Dulles hired him to look for subversives and security risks in the State Department.

Now suddenly within a month McLeod, a former FBI agent, not only has been giving interviews but has made speeches at Republican rallies.

Less than a month ago five former diplomats, in a letter to the New York Times, said the department's security program was wrecking the morale of foreign service officers.

Within the month McLeod, not always the easiest man for reporters to see, answered questions for a group of them at an off-the-record dinner and gave a lengthy interview to the magazine U.S. News and World Report.

Last week he made five speeches at Republican gatherings in Wyoming and South Dakota.

As he was returning over the weekend from the talking trip the question of morale was raised again. The Washington Star quoted civil service officials as saying McLeod wants his investigators taken out from under civil service so he can have "another FBI." And the paper quoted some department employes as saying McLeod told them at a meeting he wanted the change made so he could "hire and fire" as he pleased.

"Since that meeting," the Star said, "it is understood that at least 15 or 20 veteran investigators have quit . . . Employes in the division say morale is at a low ebb. . . ."

But McLeod's speechmaking to the Western Republicans already had got him into a dispute because of the Hatch Act, which bans political activity by certain categories of government workers. Was McLeod covered?

A civil service official said he was. The State Department's legal counsellor said he wasn't. The department is sticking to that. Democrats criticized McLeod, as was to be expected. McLeod's superiors have stuck by him.

He got into a rumpus, or was dragged into it, right after Dulles hired him last March. At the time he was administrative assistant to Sen. Bridges (R-NH).

While the Democrats ran it, the State Department had been pictured by Republicans, particularly Sen. McCarthy (R-Wis), as a happy hunting ground for Communists. McLeod was a friend of McCarthy but denies McCarthy got him his job.

Before McLeod had time to learn his way around the corridors, Bridges attacked President Eisenhower's choice of Charles E. Bohlen to be ambassador to Moscow.

And McCarthy and Sen. McCarran (D-Nev) lit into Dulles. They said that when the secretary told the Senate an FBI report gave Bohlen a clean bill, he misrepresented it. McLeod, they said, had objected to the appointment but had been overridden by Dulles. Dulles denied this.

The whole security problem boiled over after Eisenhower on Jan. 7 announced 2,200 security risks had been separated from their government jobs.

Some Republicans suggested practically all 2,200 were subversives although a security risk could be anything from a Communist to a drunk, liar, crook or homosexual.

Newsmen and Democrats began asking for a breakdown, knowing the actual number of Communists found by the Eisenhower administration when it took over from the Democrats will be a campaign issue. The administration has given none.

Last week McLeod was reported to have told a congressional committee only 11 of 534 security risks separated from the State Department involved loyalty. Later he said the figures were inaccurate.

Last week on his Western trip he told his Republican audience: "I don't think the people care if they were drunks, perverts, or Communists—they just want us to get rid of them."

Course in Americanism

By Ray Falk

TOKYO

Army psychologists, who have interviewed thousands of Americans back from Comunist prison camps, are recommending new types of indoctrination and education to enable the soldier to resist Red propaganda in case he is taken prisoner in another war.

The psychologists found that the man in the front line foxhole suffers a fear of the unknown. He hears his buddies talk about the cruelty of the enemy, of men bayoneted and emasculated, of feet cut off and fingernails pulled. But when he is captured, none or few of his fears materialize.

His confusion gives the enemy propagandist an advantage. In extreme cases the soldier even becomes grateful for not being made to suffer the pains he had expected.

The psychologists recommend that the Army lecture the fighting man on what he can expect if captured. He would be told what camp conditions may be like; what types he will find among enemy camp leaders and his fellow prisoners, what indoctrination he can expect, and how he can resist it without incurring the wrath of the enemy.

Such lectures would not be an inducement to surrender, the doctors say. As one psychologist put it: "The pilot with a parachute flies just as safely as the pilot without a parachute."

Other deterrents cited by the doctors are the stigma of surrender, the pride in the soldier's unit and army discipline.

"It takes discpline not to be won over by Red camp commanders," one doctor said "If you have high morale and esprit de corps you will have the knowledge that although you are a prisoner of war you are still a U.S. soldier. That will help you resist better."

The psychologists have found that a basic problem lies in a lack of proper training about America and what it means, about honesty and decency. There should be more emphasis on Pro-Americanism, they advise.

"We don't know enough about our American heritage," the doctor said. "How can you resist Communism if you don't know of your own country?"

The psychologists who interviewed each one of the American returnees in Korea, Japan and at Valley Forge Hospital in the U.S. report that broken homes and parents, frequently blamed for the defection to the Communists by the 21 Americans, were not the cause. Some who were lauded for their Anti-Communist stand came from broken homes, the doctors point out.

The psychologists cited two typical examples to show how a soldier follows his individual pattern of behavior even in prison camp.

Private A. hated his superiors and despised authority. He was on the verge of a court martial when he was captured. He rebelled against the Chinese, threw rocks, was labeled a "reactionary" and became a hero.

Sergeant B. always did what his parents and commanding officer told him. Then he was captured and did what the Communists told him. He was labeled a "progressive." Yet he was behaving only in his prescribed pattern.

The psychologists are now studying the records of the 3,500-odd who resisted Communist indoctrination. Why they resisted is considered just as important as to why 21 stayed behind and why others earned the label of "progressives."

Taxes No Joke in West Berlin

By Martin S. Hayden

BERLIN

Theodor Krumm laughs when he hears that American businessmen complain of high taxes and the red tape of governmental regulation.

Krumm is a leather-goods retailer in the free half of this city where two worlds meet, his modern shop is on the Kurfurstendamm facing the bombed hulk of the Kaiser Wilhelm memorial church. That is the mercantile heart of West Berlin where neon signs, well-stocked windows and modernistic interior appointments pretend a nonexistent prosperity.

Despite the surface signs so contrasting to Communist East Berlin's drabness, no one in West Berlin is getting rich. Many of the shops would be closed were it not that the tax collector—cold-hearted though he may be—knows that prosperity's symptoms help a besieged city's morale and that closed business establishments provide no jobs in a city where thousands are idle.

—:—

THE AMERICAN TECHNIQUES Krumm learned as a stock boy at Chicago's Marshall Field store in the 1920's, and later as a salesman peddling abroad the output of his family's Offenbach leather factory, don't work in the 1954 merchandise mart of West Berlin.

"I would like," he says, "to see Macy's try to run a sale in this town. Berliners today buy what they need—and nothing else. I could have the price of a $50 pocketbook, and then halve it again, still nobody would buy it just because it was too cheap to pass up.

In the tight buyers' market a retailer who is successful may make a 5 per cent profit—before taxes, but the Berlin tax collector insures him against wealth.

A typical Kurfurstendamm merchant, says Krumm, may move 1,500,000 marks ($375,000) worth of goods in a year; before taxes he will have 70,000 marks profit. After business taxes and personal income levies that make America's rates look soft, he ends up with between 16,000 and 18,000 ($4,000 to $4,500; that he can pocket.

—:—

ON THAT INCOME the Berlin merchant will live in a big restored house with a garden in a bombed-out neighborhood; he will ride in a Mercedes car that costs between $2,500 and $6,000, depending on the model; in a Germany which used to despise personal debt it is all done on credit and in line with a philosophy that tomorrow it may all be gone, so why save today.

The tax collector who may "forgive," and let a tottering business stay open, has no such softness for one that can pay. Details of West Germany's 1952 tax law, for instance, were made retroactive and merchants who had paid the 90 per cent business rates set by the occupation government had to cough up more because exemptions permitted back to 1949 by the Americans, French and British were outlawed by the new federal republic.

The tax man is just as tough, incidentally, on a worker with a job. An apprentice clerk in Krumm's store makes 150 marks ($37.50) a month and pays approximately 25 marks ($6.25) in taxes.

In the leather-goods shop it takes two bookkeepers to handle the government paper work. To the ordinary plagues of American businessmen are added such West Berlin touches as the problem of the pay of East Berliners working in West Berlin.

On the money exchange one West mark is worth slightly more than four East. Because the price tags for rent and food read about the same in the respective marks of the two sectors, an East Berliner working in West Berlin could profiteer, while a West Berliner reversing the process would starve.

To meet the situation government regulations require that Krumm keep special records on his last Berlin employees. Out of the 200 marks such a clerk may be paid per month, the employer gives her 40 westmarks and remits the balance to a government clearinghouse. There the clerk collects the 160-mark remainder of her pay in eastmarks. Reversing the process a West Berliner, working in the East zone, is allowed to exchange a limited number of his eastmarks pay into westmarks he needs to live at a fictional one for one rate.

In the eastern sector, says Krumm, "business" is even dizzier. Some time ago, for instance, and before West Berlin regulations banned such interzone transactions, the manager of the Soviet controlled H.O. store of East Berlin gave him a 80,000-mark order for brief cases, handbags, etc. A few days later the same goods appeared on the H. O. shelves at less money (by the then 5-to-1 exchange rate) than Krumm had been paid for them.

"Apparently," he speculated, "they decided they had to have something to sell, so the Communist government took the loss."

Krumm admits that some Berlin businessmen have thrown up the sponge in despair.

"That's what a prudent man would do in this crazy city," he says. "But me—I'm crazy. I'm expanding. So are some others. Just call it a bet that some day the Russians will be gone and Berlin will again be the capital of a free Germany."

On Memoirs

By TRUMAN TWILL

A couple more generals have banged out their memoirs for competing magazines, and a couple dozen others are busily filling dear diaries with dope that can be peddled if they ever become famous.

These days a fellow who figures he has a chance to be a footnote or better in history is so busy striking historic poses and figuring the morning line on posterity that he hardly has time to keep in touch with his publishers.

Not only the military men but the politicians are saving the contents of their wastebaskets and the pockets their wives must empty before sending their clothing to the cleaners. A president of the United States who can't fill a three-story building with his personal papers, minus the ones he decided might be too hard to decipher, is like the lush who hasn't reached the point of no return by midnight.

He isn't trying.

Whether or not this over-concentration on memoirs at the expense of straightening out the mess things are in while the memoirs are accumulating is going to help any non-notables make the grand tour of the supermarkets in years to come is undecided.

It may turn out that the memoir racket will reveal so many mediocrities among the supposedly great there also will be a market for the memoirs of the obscure. Or it may turn out that public appetite for memoirs will be glutted by an overdose of warmed-over opinions, I-told-them-so gloatings, vilifications from the grave and watery improvisations.

The glutting already may be well advanced, in the light of some of the memoirs recently published—keepers of houses of ill repute, entertainers, flunkies, bodyguards, con men, burglars etc.

About the only rehash that hasn't been done so far is the uneventful life of some good man or good woman who didn't make a career of kissing and telling, confiding everything to dear diary, bid-dogging through the thickets back-biting gossip in Washington, or taking the lid off somebody's garbage can in August to shock sensitive souls unfamiliar with harsh realities.

There would be nothing for the good people to tell. Such people grow up, aspire to be good and make the grade. That's their story.

They never wielded a hatchet on a victim or rammed home a knife in a dark alley. They never assassinated a character or buried a body on the sly.

They presided over no debacles. They never shifted responsibility or made an egregious blunder of historic proportions. They never wilfully misrepresented anything or played footsie with a notable.

What they would write would be totally uninteresting, even if they had a literary ghost to snazz it up for circulation-building purposes. Whatever superficial glitter might be added by sensationmongers—I Robbed a Milkman When I Was Three!—would tarnish on contact with fresh air.

With due respect to a few outstanding men like Winston Churchill, who have something to say, the memoir business is curling at the edges.

"The Arabian Nights" had more wallop. It still has.

The Once Over

By H. I. Phillips

Letter From a Police Lineup

Dear Butch: Well, I am in trouble again with the cops but it is not too bad this time on account of I am in television. I got a good alibi to beat this rap but I ain't using it until I see how I come out on TV. Just now the telecast goes only to police stations but I got acquaintances in all of them and can soon find out what my video rating is. I think I screened good. All the photos of me on Postoffice walls show I am photogenic.

-:-

It would of been better if they had let me ad lib in this police lineup but they would not give me no gag lines and made me play it straight. I tried to work in a dance but got no place. What a good crook could do on this telecast if he had indian clubs or a trick bicycle! I asked if I could bring my sawed-off shotgun on the program and go into my criminal routine complete, but they said this was allowed only on regular video whodunits and detective sketches telecast coast to coast strictly for the family trade and children.

-:-

The rap this time was for sticking up a drugstore and I could of got a sponsor form a soap and dental cream company if I would mention on this "Away We Go" hour that I was standing at the soap and dental counter when arrested.

A pal of mine got arrested for robbing a big furniture store and got a cash offer if he would plug an electric icebox he had behind when the alarm went off.

A yegg on my right on this telecast did well on account of he was a ventriloquist and somehow, no matter how bad a ventriloquist act is, it goes big on video.

The creep on my left was a bank robber but he managed to get into the lineup with a mandolin and a cowboy hat and may wind up on Kate Smith's hour instead of in the hoosegow.

I still think if I had thought to sing "Stranger In Paradise" of "That's Amore" I would of gone better on TV as almost every act on video uses them when all else fails.

-:-

Since this idea of TV on police lineups came up we got a new name for all detectives and cops. We call 'em talent scouts now. Well, it is kind of thrilling to get pinched today. A yegg can get on video any time. (Look at all the honest guys who never get no chance.)

Me and some pals is working up regular acts and we want ideas for a name. Maybe the "Three Goons," "The Alcatraz Melody Four," or "The Larcenyettes." I will write later when I get my Hooper.

Your friend,
Two-Gun Dannie

PS — If I get off this time I will wait until color video before I pull another job, as I think I look better in all police stations in full color.

Now that Dick Powell is suing "The Caine Mutiny Court Martial," which he directed until replaced by Charles Laughton, we would like to see a trial scene in which Laughton explains he took over in heavy going because Powell didn't seem to have the ship under control.

We hear the fellow Lucille Ball caught robbing dressing rooms may have his own program, "I Love Looting."

The more we follow Queen Elizabeth on that arduous world tour the more we feel like getting up a petition to have her pardoned, or at least given time off for good behavior.

4 Die in Crash Near Wooster

Cars of Father, Son In Head-On Collision

WOOSTER, Ohio (AP)—A father and his son, bound for different churches, were killed yesterday along with two other members of the family when their cars collided head on.

The dead were Charles Garrison, 34, and his wife Naomi, 33, who were in one car; his sister Faye, 14, and his father Willard, 61, who were in the other vehicle. The younger Garrison's five children were injured, three seriously.

The father and son, both farmers, lived about eight miles apart.

State Highway Patrolmen said both were driving along the center of the road which had no center line. Neither driver could have seen the other car approaching, patrolmen added.

The five children—orphaned by the crash—were the sons and daughters of the younger driver. Most seriously hurt was Donald, 10, who suffered two broken legs, concussion and a cut over an eye.

The others, all at Lodi Hospital, were Carol Jane, 4, Shock; Susan, 7, a broken left leg and shock; Richard, 1, shock; and Marilyn, 2, a broken left arm and shock.

The accident occurred on Ohio 604, a mile east of Ohio 3, and about 10 miles from Wooster.

Film Academy Winners Will Be Named Tonight

HOLLYWOOD (AP)—The Academy of Motion Picture Arts and Sciencos tonight will announce the nominations for this year's Academy Awards.

Such pictures as "Shane," "From Here to Eternity," and "Roman Holiday" are expected to get many preliminary honors.

Among the performers, Burt Lancaster as the tough sergeant of "Eternity," is considered a favorite, while newcomer Audrey Hepburn of "Roman Holiday" is a leading contender among actresses.

Practically sure to be nominated for best director are George Stevens for "Shane" and Fred Zinneman for "Eternity."

Dirty Overalls In Paper Sack Hid $100,000

Details in Bold Theft From Federal Bureau Of Printing Revealed

WASHINGTON (AP)—The government worker who made away with $160,000 in new $20 bills from the Bureau of Engraving and Printing carried out some $100,000 hidden in a paper sack under some dirty overalls.

When he walked out of the bureau at the end of his working day, Congress has been told, he "pulled the leg of the trousers out of the paper bag to show the guard and walked on out."

These details of the theft were given as bureau officials recounted steps which they have since taken to prevent any further thefts from the bureau, where paper money is printed.

James Rufus Landis, a bureau employe, made the $160,000 haul during the week after Christmas. All but $32,000 has been recovered, and Landis is awaiting trial.

Associate Bureau Director H. J. Holtzclaw told about the incident Jan. 25 in testimony before the House Appropriations Committee, which was considering the bureau's budget request. His testimony was made public today.

It was "quite painful," Holtzclaw observed, although Rep. Gary (D-Va) assured him the bureau's theft record is "very excellent."

Since the theft, Holtzclaw said, the bureau has instituted a requirement that all employes submit packages for examination when they enter the building.

Heretofore, guards were required to check packages only on departure.

The new procedure, Holtzclaw explained, was designed to prevent someone else doing what Landis did—bringing into the bureau bundles of worthless paper to substitute for bundles of bills.

Landis' theft was discovered a day or two after it happened by another bureau worker. Virginia State Police recovered $88,000 on a farm at Middleburg, Va., and $32,000 more was found in a bureau where Landis hid it. Additional small sums were later recovered, leaving $32,000 still missing.

ACCIDENT LEAVES FAMILY MOTHERLESS. Grief-stricken Edward Wiederhold, 39, Elkton, Mich., trucking operator, plans to keep together his family of 11 small children although they were left motherless when his wife, Hazel, 36, was fatally injured in an automobile accident. Wiederhold is shown holding his youngest child, Marsha, 8 months old. Others are: (seated, left ot right): Linda, 6; Sandra, 1½; Colleen, 3; Robert, 4; Joan, 7, and Larry, 8. Standing (left to right): Barry, 13; Marjorie, 12; Betty, 11, and Kenneth, 9.

Three Injured In Auto Crash

Cars Collide on 61 South of Mt. Gilead

Three persons were injured in an accident near Mt. Gilead Sunday, officers of the Marion post of the state highway patrol reported today.

A car driven by Mae G. Wolfe of Columbus collided with the stalled car of Johnny W. Worthy, 23, also of Columbus, at 8 p.m. Sunday on Route 61, three and eight-tenths miles south of Mt. Gilead.

Injured were Genevieve Parry, 55, Columbus, a passenger in the Wolfe car, with a bruised chest; Mae Wolfe, severe shock and bruised chest and knees; and Caroline Worthy, 19, body bruises. They were taken to the Morrow County Hospital in Mt. Gilead by a passing motorist. Mae Wolfe was given a citation for following to closely and is to appear before Justice of the Peace R. R. Bennington of Mt. Gilead at a later date. Patrolmen reported moderate damage to both cars.

In World War II the Japanese lost 130 submarines and the Germans 782, while the United States lost only 52. United States submarines sank 214 naval and 1,178 merchant vessels in World War II.

Brief Message On Air Reflects Pontiff's Illness

VATICAN CITY (AP)—The Vatican radio rebroadcast today a feebly spoken, four-minute message by convalescing Pope Piux XII. The pontiff's voice, weak and hesitant after his recent illness, had been recorded at his bedside over a period of two days.

The Vatican announced today the 77-year-old pontiff's recovery is continuing, "although slowly." The announcement said the pope's diet "continues to be more satisfactory daily, and it is expected that soon indirect means of feeding can be discontinued."

For the first time since his confinement three weeks ago, he was able to leave his room yesterday to hear mass next door in the private chapel of his Vatican apartment.

His address marked a day of prayer for the ailing in connection with the church's commemorati of the Marian Year—the centenary of the Catholic dogma of the Virgin Mary's Immaculate Conception. The recording in Italian was first broadcast last night. Translations in various languages went out over the radio today.

The pope spoke four minutes, telling the sick they are "precious jewels" of the church and a "valid source of spiritual energies." A Vatican radio spokesman, the Rev. Francesco Pellegrino, read the rest of the 10-minute address, then the pope gave the final benediction.

Worst Timber Fire in 7 Years Hits Meigs County

MIDDLEPORT, Ohio (AP) — Hundreds of acres of timber were destroyed yesterday in what Forester Ed Reufer said was Meigs County's worst woodlands fire in seven years.

Fanned by heavy winds, the flames spread through a strip mining area between Rutland and Middleport along Ohio 124. The blaze was brought under control by firemen and volunteer groups from Middleport, Pomeroy, Racine and Rutland.

Reuter said burning of weeds on a farm started the blaze.

Russians, Czechs Default Payments On Lend-Lease Aid

WASHINGTON (AP)—Treasury officials have advised Congress Russia is $15,584,369 in default and Communist Czechoslovakia is $31,309,524 behind in payments to the United States for lend-lease aid during World War II.

Altogether, a report showed, the United States billed foreign countries for $4,740,000,000 under the program. Of this, $65,507,000 is past due, $13,494,000 is due this year, and a balance of $2,345,000,000 is scheduled to be paid in future years.

The United States has collected $2,319,000,000.

Elks Lodge Fourth In District Contest

Marion Lodge of Elks No. 32 placed fourth in a ritualistic contest for Elks' Lodges in north central Ohio held Saturday and Sunday in Bucyrus.

The Elyria lodge was first, Willard second and Bellevue third.

The Elyria lodge will represent the north central Ohio district in the state contest to be held in April in Columbus.

The local lodge placed two men on the honorary district team when both received the highest scores in their respective positions in staging initiation ceremonies. Paul F. Baker was high man among the leading knights while George Leonard was high man among the lecturing knights.

Gasoline Leak Floods Bowling Green Sewers

BOWLING GREEN, Ohio (AP) — Residents here were alerted yesterday to air basements and not use gas stoves when gasoline was discovered leaking into the city's main sewer line.

Two 4,000 gallon gas storage tanks at a filling station owned by Clarence Patterson were leaking gasoline into the sewer line at about 100 gallons an hour, city officials said.

Some 2,500 gallons had escaped before the break was discovered. Heavy fumes permeated the northeastern part of the city and the downtown area.

City officials said they had flushed the system out yesterday and today.

For centuries, northern lights were thought to be battles and maneuvers of spirits or gods, or portents of evil.

Court Hearing Resumes On Roosevelt Finances

PASADENA, Calif. (AP) — More details of James Roosevelt's complex financial affairs are to be unwound today at the resumption of a court hearing on his wife's demands for $3,500 monthly support.

But if the opening session on Feb. 5 was a criterion, there won't be a mention of the dozen women with whom Mrs. Romelle Roosevelt accused her husband of being intimate.

An attempt to question Roosevelt about one of the three named as corespondents in the separate maintenance complaint was overruled by Superior Judge Kurtz Kaufman who said the actual trial is the place for that. Nine other women are listed in a letter signed by Roosevelt in 1945 and filed by his wife with her complaint.

Vatican City, one-sixth square mile in area, is Europe's smallest independent state. Monaco, the second most diminutive, is almost three times as large.
